1st BERESFORD CUT TO THE KNIGHT (MR & MRS B PITTINGALE)
11 month L/W well grown dog with a lot to like. Balanced head with good
chiselling and a kind eye. He has good length of neck flowing into a well-placed
shoulder, straight front and well-padded feet. He has good bone throughout, nice
rear angulation. Could be steadier on the move. Liked him a lot BPD and BP.

Now 3 years old and maturing nice and slowly. He has developed well since I
last saw him. He has a lovely head and expression, with a deep chest, good
neat feet and excellent bone. He moved freely presenting a lovely outline on the
move, should surely reach the top on maturity. BD and BOB

2nd TRIMERE TIME TRAIL WITH SANDIEBECK (MRS M & MR S WILD SMITH)

Finer frame than 1, an upstanding dog who is well-proportioned, has good rear
angulation but could be more positive on the move.

Firstly my thanks to the committee of Manchester Dog Show Society for the invitation to judge and to my stewards for keeping me in order and on time. Thank you to all who entered and particularly to those who braved the weather to attend. I do understand the work that goes into keeping the dogs clean in bad weather so really appreciated every entry.

I do have a few concerns. The Breed Standard is quite specific and detailed in its description of an English Springer head and yet I found many that bore no resemblance to it at all. Long and narrow or overly strong skulls with weak muzzles were commonplace. The prevalence of light eyes too resulted in a few too many with less than desirable expressions.

Secondly there were a number of exhibits that seemed very narrow all through, looking okay in profile but all but disappeared when they turned towards you. The Standard suggests a dog of substance, with a strong, deep body and good ribs so this is something to watch perhaps.

Lastly, temperament. Again the Standard is crystal clear in its description and I could not make allowances for anything other than an outgoing and happy temperament. One or two exhibits lost out on higher places because of this, a great pity.

On the positive, presentation was good and almost all exhibits had been bathed. I thank you for that. Generally the dogs present were of good size and sound.

Having been honoured to judge dogs at the Southern ESS Society show back in 1992 I have now been asked back to judge the Ruby Championship show. After many years in my beloved breed I was certainly looking forward to the fantastic entry of 190 dogs with 244 entries. The Southern Club has always had a reputation of doing different things and this year was no exception as it was their 40th year they took the entry price back to that year £1.40. Colour photos for class winners. Sponsors of Royal Canin. Double prize money. The day came when I was again to judge at this well organised show but I think everything was going to be against me, the M1 was closed it took 45 mins to leave the motorway then a very slow start to get to another road South, with Kirsty at the wheel a most frightening and terrifying fast journey to the venue but although shaking we arrived in one piece and almost on time. The venue with a new ring layout seen by myself looked impressive certainly lots of work done by the hard working Secretary and committee pulling together to run a fabulous show.

Lovely to have Judith Hancock (Hawkhill) as the specials judge and as the two of us had been present 40 years ago at the first Southern show we cut an amazing 40th cake made for the club by one of the talented exhibitors.

The quality of the exhibits was high, with so many entered there was lots to choose from. A couple of pointers we need to watch are heads being too strong or losing the strength in foreface or wide flat skulls, the shape of eye is almond not round and starry, the neck has to be of good length, well laid back shoulder angulated to upper arm which must be angulated not short and upright. We certainly need to watch this area as here we are losing the true English Springer breed movement, throw forward from the shoulder and driving rear action, please don't lose it for short striding choppy movement is not the required breed movement

stood out in this class for his substance and overall development. I would have liked a little more length of leg to balance the depth of his body. Preferred the head construction of this smart 10 month old, good dark eye well shaped, nice chiseling, moderate arched neck, good angulation from layback of shoulder to upper arm angles, deep chest, good length of topline just a little slack, well conditioned l/w coat with nice feathering over a deep body well ribbed back, correct length of loin, strong hindquarters with enough return of stifle. Playing the

fool and making it difficult for his handler was a little unsettled on the move paddling at the front, but with the best length to his side stride and rear drive but would like firmer hocks. BPD RBPIS

2 Walkers' Lochbride Mastercraftsman at Dexbenell

a very attractively marked dark l/w of nice breed type and overall balance. Good head shape but lacking the work and development of 1. Eyes need to be darker and more almond in their shape. Steeper in upper arm but with good depth of chest, firm topline over a well ribbed back body with depth, nice boned legs and good tight feet. Correct return of stifle, moved freely with a enough stride just lacking the reach of 1.

good looking dog on the stance and nice to go over as you need to put your hands on him as his B/W/Tan markings make him look long in the body.

Correctly worked and chiseled head, dark almond eyes, well set ears, Would like more neck length, shoulders angulated but lacks the return of upperarm.

Firm topline over a deep well ribbed body, excellent muscular quarters and stifle very positive mover with a strong side stride from legs well boned of good length the soundest dog both coming and going.

2 Whitworths' Freworth Polar Express

masculine head with nice expression from kind eye, correctly set on ear. Needs more length of neck to show off his balance. Would prefer better angulated front, has good depth of chest, firm level topline with nice tail set and carriage over a well ribbed body with substance. Well presented L/w jacket with nice feathering. Straight balanced well boned legs and tight feet. Rear quarters well developed needing a little more musculature, at first was very unsettled on the move hocking out but settling showed soundness but needs more front throw and rear drive.

Good arch and length of neck into well laid shoulders, firm level backline and nice set on happy tail. Well angulated front and rear with good muscle tone, excellent depth of chest and body with ribs well back. Straight well boned legs and tight feet, well muscled and return of stifle with good second thigh. Best mover with drive from the rear and good throw from the front giving ground coverage.

2 Lawlers' Roqfolly Inferno

a slightly smaller build but very well balanced 4 months younger and not as masculine or as strong in his development. Lovely balanced head shape, well chiselled with dark kind eye well set ears with nice leathers, would like more strength of foreface. Good arched neck of length well laid into shoulders with correct angles to upper arm also well angulated, firm topline to tail well set. Good depth of body well ribbed not quite the substance of 1 beautifully presented coat with nice feathering coming. Balanced legs well boned tight feet, correct return of stifle good muscle tone, neat hocks, once settled drove out soundly with good front throw. Well handled.

well coated and feathered l/w, stronger build and up to size but with good overall balance and a nice breed type. Preferred this dog's head construction shape, balance and was well chiselled, dark correctly shaped expressive eye, set of ears with nice feathering, head held well on enough neck, shoulders well laid topline held firmly, good upper arm, depth of chest and body well sprung and ribbed back, correct return of stifle well muscled, straight well boned fore legs feet rather too big. Moved out soundly with enough drive and forward throw but he needs to be moved faster to get a good length to his stride, tail carriage little high on the move.

2 Hensons' Melkami William's Wonder at Kobrocobi

islightly taller than my winner but again well balanced and of good type, stronger head but well constructed and worked with good chisselling. Good length of arched neck well laid shoulder but needs more angulation to his upper arm, good depth of chest, brisket and body with ribs well sprung. Very attractive l/w/tan with nicely presented and textured coat. Well angulated stifle lacking in muscle tone. Straight well boned legs and feet moved out well not as powerful or positive as 1 in his stride. Happy tail.

correct height to length and a moderate dog so well balanced with good depth of body with substance and well sprung ribs. A dog you need to put your hands on because he is very heavily marked with a well textured and conditioned solid b/w coat with nice feathering. Loved his head development, chisselling and balance with dark kind eyes well shaped, correct ear set and feathering. I would like a longer neck but shoulders are well laid, well angulated upper arm with superb depth of chest well boned straight legs and neat tight feet. Strong quarters, very good return of stifle and second thigh, strong well let down hocks, very impressive on the move which was sound with good shoulder throw and drive with good ground coverage. Should have a bright future.

2 Merry & Wrights' Anacapa Just Jack

a very similar build and balance to my winner with lovely substance and depth with well sprung ribs, stunning well worked head, lovely expression kind dark eyes and nice ear length. Would like a little more length of neck but shoulders are laid back enough into a firm level topline to nice tail set and held well.

Beautiful condition to his l/w/tan jacket with nice feathering. Correct upper arm angles with chest depth, strong rear quarters, stifle and hocks, would have liked better boned forelegs and smaller front feet. Moved out soundly with good drive and throw forward

a very impressive dog I have watched with interest as he has grown, matured and developed, has a well balanced outline of lovely breed type and so well handled to get the best from this dog. Stunning head of good proportions, chisselling, kind expressive dark eyes with work under, nice ear set, carriage well feathered, good length to arched neck well muscled, shoulders well laid back, firm back and well held tail. Correct fore and rear angles, substance, depth and well sprung ribs make up a good body covered in well conditioned and presented l/w coat with nice feathering. A stylish mover, moved to advantage with drive

little close behind who covers the ground well on correctly balanced and boned legs and tight feet.

2 Jenkinsons' Eastriding Armani Diamonds

lovely outline to this very attractive l/w presented in a super textured and conditioned coat with lovely feathering, has improved immensely since I first saw this boy as a raw youngster. Head is correctly proportioned but his wide clear white blaze just makes you look again and needs your hands to feel his lovely chisselling and work, kind eyes but shape and colour could be better, nice ear set, head held well on good length of neck well muscled, well laid back shoulders into firm level topline, strong hindquarters, good return of stifle well let down hocks. Correctly angulated front, superb deep chest, elbows well in on straight correctly boned legs with tight feet. Stylish mover with correct breed throw and drive and sound just fraction close behind.

I could use just one word for this critique and say "stunning". A dog I have not seen before and thought him so very special he is so breed type fitting the moderate standard correctly. With such a balanced outline which was presented in a gleaming flat solidly marked L/w/tan jacket making him a real eye catcher. Correct head shape and dimensions well chisselled, dark almond eyes kind expression, ear set and beautiful well feathered leathers. Well muscled and arched neck of good length correctly angulated shoulder to angulated upper arm. Superb deep chest and body well sprung ribs, balanced forelegs well boned tight compact feet. Muscular hindquarters, with correct return of stifle and second thigh, well let down hocks and compact feet, fleeting side gait such forward throw and sound driving action looked to be floating at speed. In the class and the challenge I had no hesitation in awarding the CC and BIS. I'll give myself away and say how proud I was to see him awarded the CC at Crufts.

2 Glendinnings' Sh Ch Plaiglen Hustle

another fantastic breed type a dog I have admired for along time and watched him develop and mature into this very special quality balanced 4 year old. Love his head so correct for me with lovely chisselling and work dark expressive almond eyes, correct set on ears with good feathering. Nice muscular arched neck into well laid back shoulders, firm backline and muscular quarters. Good tail set and carriage. I would like a little more upper arm angle, good depth of chest, brisket and body well ribbed back another who was in tip top condition and high presentation of his gleaming B/W jacket with nice feathering, balanced front legs well boned with tight compact feet. Muscular hindquarters, good stifle and thigh with well let down hocks, moved today with free sound driving action and sound forward throw. Pleased to award Res CC and best B/W in show.

Impressive pretty feminine head correctly built, nice chisselling, dark expressive almond shaped eyes, good ear length with feathering. Strong neck of good length well laid back shoulders correctly angulated to her upper arm. Level back held firmly, nice tailset and carriage. Great body with depth and substance, well sprung ribs well back nice short loin, deep chest and brisket. Beautifully presented, gleaming condition to dark heavily marked L/W jacket with lovely feathering. Straight correctly boned and balanced legs with compact feet, muscular hindquarters moderate return of stifle well let down hocks. Superbly handled to get the best from this bitch who was sound both coming and going with powerful drive and good shoulder throw. Well into the mix just couldnot pip my final CC winner so today RCC. HANDLING CLASSES – Judge Mrs Judith Hancock (Hawkhill)

Class 1 – 6-16 years

I cannot bring myself to write individual critiques on the juniors as the age gap was too wide. However, I will say that the standard was very high and the first two were very competent, had obviously had a lot of practice and hopefully will be an asset to the breed in the future.

Class 2 – I am not sure what to say about the senior handlers – all were used to showing their dogs and the first three had a bit of added style!

Thank you for a wonderful entry, both numerically & for quality. I still think that the type of our best ones cannot be bettered – but there is a tendency for some to be a little too boxy & short on the leg for English Springer type. Head type varied & too many lacked confidence on the move, something quite new to me & that sometimes affected the results.

However, the rest of my thoughts are very positive, many top quality, true type Springers, most shown in excellent condition & some of the classes were closely contested. Judging the breed was my highlight of Crufts for depth of quality.

Many thanks to my stewards.

I would like to thank the Officers and Committee of the English Springer Spaniel Club of Scotland for affording me the honour of judging this smoothly run breed club Championship show. The catering was first class and my steward was great, thank you Ricky. I had a lovely day.

My overall impression of this entry was that we have some wonderfully shaped, typical English Springers and was pleased to note that I didn't see too many overly long necks, or overly angulated rear ends. Round eyes are still prevalent by not quite so "starey" as previously seen. The one thing I noticed more on the dogs than the bitches was lack of forechest. Rear movement on both sexes was an eye opener at times too, and some dogs I admired on the stand were knocked in being placed higher at times for this.

Veteran Dog 3 (2)

1st Whitleys' Shipden Will Hay

10 year old black and white all male dog. In wonderful, hard muscular condition and looks like he could move soundly and well all day. Super thick, well shaped feet, lovely short hocks and went really well. I last judged him over 2 years ago and apart from a little more grey around the muzzle he still retains his lovely dark, almond eye shape. He is a credit to the breed.

1st Calverts Calvdale Costa

10 month liver and white boy, lovely size, shape and type. Superb coat and condition, quality bone without being over done. Kind eye of good colour, Good length of neck and shoulder placement. Lovely spring of rib and depth for age and really well developed and muscular rear end. Moved a little erratically in the class but went well and happily in the challenge. Pleased to award him Best Puppy Dog and later Best Puppy In Show.

Junior Dog 3 (1)

There may have only been 2 dogs in this class but I was really impressed with them both. I think the wind outside must have got to them both as they thought movement was a time to jump around like Tigger and generally act the fool! Eventually saw enough to award:

1st Smiths Melderly Buona Notte

17 month liver dog who impresses immediately on the stand for sheer quality and breed type. Super front, straight, well boned legs and thickly padded feet. Lovely length of neck into well placed shoulders. Good depth of chest for age and a lovely hard topline. The best of rears and super width of second thigh, well set tail and to add to that a really lovely eye. As said above he didn't want to help his handler show off his virtues on the move but he's a teenage boy... they have other things on their mind sometimes!

2nd Brough & Walkers 'Riselawroad No Deal

What a prospect this young dog is and pushed first all the way for this class, I felt on the day being just 13 months old he gave way to the older junior dog who eventually relaxed into his stand, whereas this young man I think wanted to play tag with his handler. I would love to see this young dog move in a huge outdoor ring as I think when he knows his job he will be outstanding. I thought his head lovely with a good almond shape dark eye with a glint of mischief. The best of fronts with plenty of heart room and super neck and shoulder, excellent spring or rib in really hard, fit condition.

Yearling Dog 2 (1)

1st Watsons' Roqfolly Intermezzo With Bordacity

22 month liver dog, well shaped body and nicely shaped head. I would prefer a slightly less round eye. Enough length of neck but shoulder is upright which affected his front movement. Moved with enthusiasm but was a little proud of his tail.

1st McGoverns' Baxbalach Rumour Has It

Beautifully presented, handsome headed dark liver dog with well shaped eye, good stop and well chiselled around the eye. He has a good length of neck onto decent shoulders. I found him a little narrow all through and he also tended to fall away at the rear. For me a little more weight would be to advantage.

Post Graduate Dog 6

Standing this dog is a picture of moderation. Lovely size, type and shape. His dark liver coat is in gorgeous condition. Well boned with lovely neat, well shaped feet, good straight front with excellent width and plenty of heart room. Good length of neck onto really well placed shoulders, excellent spring of rib, a lovely fat bum, second thigh and wonderful short hocks. He moved soundly but with no real enthusiasm. A smart boy.

2nd Hays' Tralay Black Jack

What a good, honest black and white dog this is. He is not an instant eye catcher but when you go over him he has so many virtues. A really lovely kind dark eye on a well shaped old fashioned head which leads onto super neck and

shoulders. Good depth of chest and spring of rib. Excellent rear end which he used to advantage on the move, he looks like a dog that could work all day. Unfortunately his coat was just starting to blow.

He has the best of feet, round, tight and neat, perfect bone all through and just gorgeous neck with a slight arch leading onto well placed shoulders. Great spring of rib and short coupled. Loved his width of thigh leading onto short powerful hocks. He moved well, soundly and happily, his presentation was first class. Pleased to award him the RCC.

2nd Topliss' Beresford Special Delivery

A quality liver dog. Really liked him for his overall shape, size and great springer attitude. His head was masculine without a trace of coarseness with a tight, almond shape, dark eye. Gorgeous neck and shoulder. Good depth of body, spring of rib and well coupled. In excellent muscular condition which showed in strength of movement and wonderful strong topline. I loved his front assembly which is text book perfect and elbows neatly set in to his body. Well developed, deep chest and excellent spring of rib. Wonderful broad, muscular hindquarters with a well set and carried tail. He moved soundly with reach and drive keeping a firm topline at all times. Delighted to award him the CC and RBIS.

2nd Glendinnings Sh Ch Plaiglen Hustle

Another beautifully presented, quality Champion. I have admired this dog previously and love his correct height to length shape and all in that lovely moderate package. His black and white head is beautifully made with correct chiselling and such a kind, gentle expression. He has the best of bone leading down to the loveliest of well shaped, tight, compact feet. A strong arched neck into well placed shoulders, good depth of chest and a strong muscular rear. He was not being overly helpful to his handler today which was such a shame. He moved ok, a little narrow behind, but not as I have seen him go previously.

What a sweet black and white bitch. Really well muscled which showed in her very sound movement. In an old fashioned mould which I don't mind. A moderate bitch with good angles, just slightly inclined to lose a straight topline at times on the stand. Excellent weight and condition. Best veteran.

2nd Scorgies' Berkenbar Arriana At Ardtalla

Thought she was my winner on first glance in this class. The most beautiful head with super chiselling and the kindest dark eye, I could have stared at it all day. Her profile movement is glorious with drive and throw however she tended to move a little close fore and aft. Lovely size, loved her feet.

The best moving and most consistent little bitch of the class. She has the sweetest of heads which is well shaped with a kind eye and expression. Well proportioned all through with enough depth and weight for age, well boned on a firm rear. Would prefer tighter, full feet. A little sweetheart.

2nd Smiths' Melverly Serenity

2nd Jenkinsons' Holliveras Verona With Eastriding

Quality super dark coated l/w/t baby of 9 months. Happy, outgoing and moving soundly and well on the move with drive and throw behind but a little erratically in

My star of the day. She came, she saw, she won the CC and BIS. A super quality l/w bitch. She is a classic shape that catches your eye immediately showing her excellent height to length ratio. Beautiful head shape with lovely chiselling around her dark kind eye in absolutely sparkling condition. Excellent length of neck with that slight arch placed into well laid shoulders. She has excellent bone with the neatest of well shaped thickly padded feet. A lovely front with elbows well set to her body. Loved her depth and excellent spring of rib, well coupled superb bend of moderate stifle and second thigh. A wonderful broad, muscular rear with good short hocks that were used to advantage to show her moving soundly, well, and with a diva like attitude. No choppy strides here. I loved her.

2nd Topliss' Calvdale Duty Calls

Such a shame this gorgeous b/w bitch met my CC winner in such sparkling form today. Another with personality in spades and really showed it all when she moved around the ring with great drive and "look at me" attitude keeping a super topline at all times. Another bitch of excellent shape and type, with the cleanest of outlines. The darkest of eyes and well shaped, pretty head. Clean throat and excellent length of neck. Not quite the front of the CC winner. Her feet are super, she is well ribbed and short coupled. Excellent rear and very well muscled. Her presentation was flawless. Her markings on her head don't do her justice as she has a lovely, well moulded head, and the darkest of almond shaped, kind eyes. A good length of neck into first class shoulder placement and excellent forechest. Excellent strong topline and a lovely tail set onto a well made, muscled rear.

2nd Lauchlans' Dexbella Eluzive Dream

Such a pretty dark liver girl. Unfortunately today she was carrying more weight than I prefer which made her appear stuffy on the stand next to the first. She was a sound moving girl although a little distracted at finding "mum". Lovely moderate shape, quality bone, liked her rear end and short hocks. Looked like she had been bathed in Daz – sparkling white!

A nice overall shape on this bitch. I found her a little immature all through but was a sound moving, happy girl.

2nd Watsons' Feorlig Quiz

L/W/T bitch who was playing her young handler up, when settled she moved soundly up and back, would have preferred to have seen a little more length of stride but I think being naughty was more on the agenda. Decent bone, neck and shoulder.

I would like to thank the committee of the Lancs & Cheshire ESS Society for the invitation to judge at this well organised and friendly show. I am grateful to everyone that entered and brought their dogs for my opinion. It was a privilege. The Breed and its current status has been the object of much criticism from judges recently and I, being a 'glass half full' kind of person, hoped to find lots to be optimistic about. Some classes were full of quality with many close decisions that could, without doubt, change on another day. I looked for exhibits that displayed balance and symmetry in outline, good substance, sound, free and typical ground-covering movement and a beautiful head and expression. I found it in all of my main winners and more besides.

However there were some disappointments. Heads seem so very varied. Some are undeniably lovely to look at but there were also overly broad skulls and plenty of weak muzzles in evidence. Eye colour was generally better than I had anticipated but quite a few that were rounder in shape than is desirable.

Forechests were elusive and I would like to see more substance and better forehand assemblies on some exhibits. Temperament was excellent although I could wish to see more demonstrating the 'happy', 'active', 'merry' character the Standard calls for and describes.

Minor Puppy Dog 2 (1)

1st Wrights Anacapa Just William

Six month old black tri puppy on his first outing. Very happy and outgoing temperament and took everything in his stride. Quite raw at this stage as you might expect but much more to come yet. Correct size and compact with good bone and feet. Pleasing in head with dark eye of the right shape. Deep chested and well ribbed. Standing a little high at the rear at present, no doubt that will correct in the fullness of time. Moved steadily.

Puppy Dog 4 (1)

1st Eyeingtons' Buzzing Obsession Of Meadowdale

Well developed liver tri puppy of eleven months. An eye-catching youngster who is so very mature in every respect for his still tender years. Masculine and well chiselled head without coarseness and with the refinement I appreciated. His eye shape is correct with reasonable colour and his expression is soft. Neck of decent length, would like a little more forechest. Has great depth of body and is balanced in angulations, long and correctly angled upper arm, allowing him to move in profile with super forward reach and extension. Excellent bone and feet. Needs to tighten in rear movement yet. Lots of coat for a baby which was beautifully presented. Best Puppy Dog.

2nd Ainsleys' Equess Empire Evenflow (Imp Pol)

Slightly younger boy and another with plenty of substance for his age. Much heavier in head although it has balance with a kind eye of good shape. Super forechest and great bone and feet. More compact than 1. Has a lot going on in the rear angulation department but matched by a well angulated front with correct shoulder placement. Immaculately turned out and in excellent condition. Needs time and furnishings which will soften the angles and complete the picture. Super temperament too!

3rd Hothersalls' Calvdale Hot Wheels

Junior Dog 4

1st SmithsMilverly Buona Notte

Very beautiful young liver and white male. Presents a sublime picture, so stylish and full of quality. Have seen him only once before on one of his much earlier outings where I remember feeling just a little bit blown away that a six month old baby could have so much going for him. He is masculine but there is no coarseness. Refined in head with gentle male expression. Super reach of neck. Angulation is sufficient and balanced without exaggeration. Really deep chested with plenty of substance all through. Lovely bone and feet. Superb flowing topline. Loved his already strong and well muscled quarters with well bent stifles. Handled to perfection and in sparkling coat and condition. His youth is apparent on the move but he is completely sound with good extension and drive. Today he was the complete package for me and I was delighted to award him the CC, certainly his first of very many and finally Best In Show. Congratulations.

2nd Broughs' Riselawroad No Deal

Thirteen month old liver and white male of very nice type. Slightly taller on the leg than 1. Pleasing and masculine in head, stronger though in back skull but with a well-shaped eye. Eye colour still to darken a fraction. Good reach of neck, well laid shoulders and he is balanced in angulations. Would like more forechest perhaps but his overall depth is good and he is both compactly made and short in loin. Impressed me greatly on the move – really strong, stylish and sound with typical and effortless reach and drive.

Yearling Dog 3

1st Happs' Jorobaden Ballabrigas

Solid liver boy of lovely size. He has a beautifully balanced and refined head with the very gentlest of expressions. Correct both in eye shape and colour. He is compact with nothing overdone. Enough bone and super substance. Excels in forechest with a good spring to ribcage. Modestly angled fore and aft. Moves soundly but a little close going away. Doesn't carry a lot of coat but he was in good condition and well presented.

2nd Crabtrees' Roqfolly Black Label

Correctly sized black and white boy and another out of a compact and moderate mould. Good bone and feet. Head is pleasing although I would prefer more

strength in foreface but good eye shape and the colour you would hope to find. Coat in lovely condition but he carries a lot on a fairly small frame. I think less, particularly over his neck and shoulders, would improve his outline.

Attractive black and white male of good size. Solidly marked, masculine and balanced head that I liked with a kind eye and biddable expression. He is strong enough in back skull but it is matched by a broad and deep muzzle with super chiselling. His markings do him no favours but he is well angulated with well placed and set shoulders with equally good upper arm angulation. Would like a bit more forechest. Plenty of bone and lovely tight feet. Excellent forward reach on the move.

3rd Atkinsons' Wenark Prelude At Kisanto

Graduate Dog 1

1st. Atkinsons' Wenark Prelude At Kisanto

Upstanding, strong black and white male. Very masculine and I would prefer less width to back skull for better balance to head. Moderate in angulations but well bodied and well ribbed with short couplings. Super bone and lovely tight, well padded feet. In excellent coat and condition. He was quite a handful today and it was difficult to assess his movement. He had fun though!

Post Graduate Dog 4 (1)

1st Savells' Trimere Tom Cruise With Petranella

Elegant and well presented young liver and white male of lovely size, make and shape. Refined male head that was well chiselled with a good shape and colour of eye. Very gentle in expression. Nice length to neck with slight arch. Pleasing proportions and enough bone for his size. Is lacking a little in substance and I would prefer broader, chunkier thighs. Time will undoubtedly be his friend however, and with more body development and fill he will look much more the finished article. That said he is a super moving dog, really extending well with correct swing forward and drive from the rear.

2nd Hensons' Melkami Williams Wonder At Kobrocobi

Much larger framed dog than 1 with great substance and depth. Very masculine in head, slightly strong in back skull but this dog does have a very lovely expression from the kindest of eyes. Good bone and moderate in angulations.

Longer in loin than 1. Presented beautifully and in great condition. Not a lot of vitality on the move although suitably sound and steady.

3rd Richardson/Terry Richardsons' Alanea Juke For Cherishym

Mid Limit Dog 4 (1)

1st Cokells Carlyquinn Can't Wait JW Sh CM

Have judged this boy before as a puppy, liked him then and could see no reason to change my mind. Rangier, upstanding male but very well constructed. Pleasant and masculine head with correct eye shape. Excellent bone and good substance. Loved the flow from his neck into shoulder and he has corresponding angles fore and aft. Has depth and strength in loin and broad, muscular thighs. Well presented and conditioned coat. More than desirable movement in profile with long, free and easy strides and super side gait.

2nd Downwards' Reubens Razzle Dazzle JW

Dog out of a smaller, more compact mould than 1. A little strong in head although it is balanced with kindly expression. I would prefer more length to his neck but he has really great depth of chest with plenty of substance throughout. Very good bone with tight round feet. Another super free moving dog showing both soundness and animation.

3rd Drinkalls' Mompesson Tribute with Esscroft

Limit Dog 6 (2)

1st Lawlers' Roqfolly For a Your Eyes Only

A liver and white boy that pleased me for size, refinement and balance in outline. Beautifully presented and classically-marked. Head is masculine with dark eyes and kind expression. His eye is a fraction round and I would like more strength in foreface. Nothing overdone about this dog in any quarter and had to pull out all the stops to win what was a super class of males. Packs a lot into a neat and compact frame and is beautifully angled without exaggeration with lovely legs and feet. Moved out really well and sympathetically handled to bring out the best in him.

2nd Savells' Petranella Proper Gossip

A lovely dog – all male with typical, unexaggerated spaniel outline and close up to 1. Pleasing head with dark eye of correct almond shape. Stronger in back skull than my ideal but his expression is kind. Really super bone, legs and feet. Well bodied and deep all through with plenty of fill through the middle. Great quarters which are broad and strong. Lovely size and very sound. Presented in immaculate order with dazzling white coat.

A class full of quality exhibits. My first five were lovely as were one or two more that were unplaced. Some close decisions here and some 'favourites' had left their 'Sunday best' at home. It did matter today.

1st Walkers Sh Ch Dexbenella It's About Time

Superb liver tri male who I found hard to fault. Loved his head which was refined and balanced with dark eye and gentle kind expression. He is compact in build with moderate and correct angulations. Good length of neck with slight arch and correctly assembled shoulder. Just lovely bone and the tightest of feet. Deep chested with substance all through. Correct spring and depth to ribs and he is short from hock to heel. Stacked he commands attention for his balance and immaculately presented coat. Completely sound on the up and back but lacking a little in profile movement. Not moving out with the sparkle that I know he can and sadly his lack of oomph cost him any more today.

2nd Glendinnings Sh Ch Plaiglen Hustle

Gorgeous black and white male who was close up to 1. Smaller, shorter-coupled and standing over less ground than 1. Really beautiful, well chiselled and correctly proportioned head. Dark pools for eyes and the loveliest of expressions. His outline is totally free from exaggeration. Great legs and glorious feet. Deep and strong though the middle with excellent spring of rib. Beautifully conditioned coat with lovely feathering. Not one who likes to make life easy for his handler on the stack, but he comes alive on the move, moving in true Springer style with lovely head carriage and excellent reach and drive. An impossibly difficult decision here – this boy put in more of a performance but I just fractionally preferred proportions of 1.

Veteran Dog 3 (1)

1st Allen & Botts' Sh Ch Trimere Talking Point Of Allanie JW

Top quality liver and white male. Super size and short-coupled with great depth of chest. Refined head with kind expression although I would prefer more squareness and depth to flew. Good reach of neck. Lovely bone and excellent feet. Very well sprung ribs and he has great strength and breadth in quarters. Moderately angulated. In superb condition and beautifully presented. Such an eye-catcher on the move, so sound fore, aft and in profile. He never lets his handler down and is still giving the youngsters something to ponder. BVIS.

2nd Downwards' Sh Ch Reubens Silent Reflection

10 year old dog in wonderful, full-coated condition for age. Slightly larger than 1 and much more moderate in angulations. Lovely head and expression with super dark eye. Enough bone. Really spritely and sound mover.

Good Citizen 2

1st Eyeingtons Sh Ch/Ir Sh Ch Meadowdale Chaos JW ShCM

Truly beautiful dog with a sensational outline. Super size and masculine without coarseness. Gorgeous head which has correct proportions and chiselling with the very softest of expressions. Good reach of neck. More angulations fore and aft than my other main winners but what he has is both symmetrical and balanced and it suited me down to the ground! Excellent length to upper arm with corresponding sweep to stifle. Could wish for more forechest but his depth is good with excellent spring to ribs. Moved out soundly and enthusiastically in correct Springer style holding a firm topline. Coat in pristine condition and put down to perfection. Loved him and more than happy to award him the RCC today.

Firstly my thanks to the officers committee for the invitation to judge, a big thank you to Gareth and Ceri for their hospitality, My stewards Richard Stafford and Daniel Lambert on keeping me in order, I enjoyed my day very much, and finally to the exhibitors for many of them making the long journey into Wales. It was an honour for me to be able to go over some outstanding exhibits.

I was extremely pleased with all my winners and could have done with a few more red cards. I do think that some dogs could do with more substance a little light in bone, Narrow in head or too broad and too heavy, poor movement a problem some fronts need watching with many lacking in width and depth of forechest. And I would like more width of second thigh on some of the exhibits, I was asking myself what has happened to the lovely expression and work in the head, Plain heads is not an option they should have melting expressions Perhaps having the opportunity to go over some of the top winners in the breed would help, seeing is not always what is underneath.

Finally: Most exhibits were well presented and with happy temperament so huge thank you to all of you.

Almost at the end of her Junior career this bitch is somewhat immature but that said there are good qualities that can only be enhanced with maturity. On the stack she gave the impression of balance. Reachy neck into well assembled shoulder. Would like more depth and development in her 'middle piece' but well angulated both ends. Moderate bone, tight feet. Moved out well.

Black and white bitch, compact in body, pretty head which I found balanced and feminine with dark eye which was the correct shape with a soft expression. Nice length of neck into correct shoulder, depth of brisket and well developed ribs. Straight front, moving well. One feels this bitch could do so much more.

Nicely constructed all through. Balanced headpiece with really pleasing expression. Good length of neck into well constructed shoulder. Deep through body. To be picky I would like a little more rear development and a better tail carriage. Looked well in profile stack.

Surprised myself as she isn't what one might take to be 'my style' however – nice sized bitch with balanced head. Good length of neck into well layed shoulder. Firm topline and correct balanced angulation all through. Straight front with tight feet. Would prefer her to carry more 'middle' but her movement won her the class. Her foot fall is accurate and her flowing gait showed off her qualities with great ground covering stride with all the reach and drive one would ask for. Delighted to award her the CC (her second I do believe). Hope number three comes along shortly.

2nd: 1192 LAWLER, Mrs D & LAWLER Mrs C Roqfolly Born To Boogie

Often appreciated this exhibit from the ringside but never had the chance to judge her till now. Different stamp to the winner. Feminine head with good

proportions. Slim well muscled neck into correct shoulder. Sufficient depth through body to balance her up. Good spring of rib. Balanced angulation fore and aft. Close decision between 1 and 2 but this bitch just gave the impression that her mind wasn't on the job today and it cost her unfortunately. RCC.

The dam of my DCC. A bitch that has for me improved with age. Her expression has softened and she appeals much more than last time I judged her which just goes to show that dogs change too. Good size with plenty of quality. Well constructed with balanced angulation, well off for bone, strong feet. Carried her topline well and her well developed quarters provided the power to propel her on a good stride around the ring. Lacked a little muscle tone today.

Stood alone but a quality bitch that pleased me. Made a lovely picture stacked and really took my eye. Balanced head and lovely eye colour and correct shape. Neck flowed onto well constructed shoulder. Deep body and well developed forechest which is sadly so often lacking in many of today's exhibits. Ample bone and shown in beautiful condition. Firstly my thanks to the committee of Bath Dog Show Society for the invitation to judge and to my stewards for their efficiency in keeping me on track after the delayed start - apologies for my tardy timekeeping mainly due to horrendous holiday M5 traffic! Thank you to all who gave up their Bank Holiday Saturday to bring your dogs under me – not the biggest of entries but I have some lovely examples of the breed to go over and do appreciate the effort that you had obviously put into ensuring that your dogs gleamed in the glorious May sunshine.

Lovely 15 months old flashy L&W youngster who is of good make and size. He is masculine in head but not coarse and so well balanced – eyes are darkening nicely and are of the correct shape. Super reachy neck with good lay back of shoulder and plenty of substance and depth throughout. Stands on lovely tight feet and thought he would feature in my top awards but sadly he just was not happy on the move and just couldn't get into the swing of things today. He is still a youngster so hopefully his confidence will improve with time.

1st: 3306 BRENNAN Mrs K Trimere Turning Point At Kerrijoy

17 month old young dog who is starting to mature nicely. Lovely typical head as you would expect from this breeding with dark almond shaped eye. Beautifully presented in his wonderful gleaming liver and white jacket – has great reach of neck and layback of shoulder with super angles fore and aft – plenty of substance and depth to body and well boned with ample musculature throughout. Stands on super tight feet on well boned legs that he really uses on the move, really reaching from the front and driving from the rear - a lovely young dog who should finish well. Reserve Best Dog

2nd: 3316 HOLT, Ms K & HOLT Miss B Melverly Missionaire To Bethryn

At just over two and a half years old, this young L&W, although very different in style to the class winner, has very similar attributes. He has a kind expressive head with dark well set eyes, super layback of shoulder and great substance and depth to his body. Great muscle tone all through – this is a dog who doesn't appear to spend his days on the sofa – looks as though he would be equally happy in the field as he is in the show ring. There is absolutely no mistaking he is all male but without any hint of coarseness and he moved really well with super reach and drive – really was splitting hairs but preferred the head of class winner

Where oh where have you been hiding this bitch? What a super constructed and balanced bitch this is with great angles fore and aft. Another elegant bitch from this kennel with a typical Springer head piece with the darkest of eye and plenty of work throughout. She is beautifully proportioned throughout with slightly arched muscular neck which leads into well laid back shoulders. Stands on well boned legs with nicely tucked in elbows and lovely tight feet. Well sprung ribs and short coupled. Excellent width to second thigh and well turned stifle with great rear angulation. Could watch this bitch move all day, covers the ground with ease – great to see such super forward reach with legs being thrown from shoulder whilst being driven round by her powerful hind quarters. Well

presented, just not quite the gloss of my eventual Best Bitch and therefore just pipped to the post in the challenge by her daughter but a very close decision between two delightful bitches. Reserve Best Bitch

I admired this bitch as a youngster and she appealed then and at just over 3 years old – she ticked all the boxes for me today. She is so well balanced in her head piece with wonderful dark eye and that pleasing Springer expression that we all love so much. Good length of neck that leads into well laid shoulders and carries a level topline both standing and on the move. Great depth to her body and deep in brisket and firm muscle tone throughout. Although she can appear a tad longer cast than others, now that she is blossoming with coat and feathering she looks more the finished balanced article. Super angles fore and aft and she is so true and balanced moving away and coming towards youand that is where this bitch really comes into her own. She was so elegant yet powerful on the move and simply flowed around the ring throwing her front legs from the shoulders and driving from the rear that she took my breath away. Really was up against it in the challenge up against her daughter but just tipped the scales today for me. Delighted to award her Best Bitch and Best Of Breed

I thoroughly enjoyed my day with a super numerical entry with lots of quality & incredible sportsmanship in the most part, with continuous applause throughout the day. I found many differing types through the classes, with some alien heads & a lot of lighter than ideal eyes. Toplines were on the whole very pleasing, however, I found that exhibitors insisting on over-extending their dogs on the stack made their topline, at times, resemble American Cockers! Movement & temperament, in the main, with a few exceptions, was very good.

Minor Puppy - Dog Entries: 2 Absentees: 1

1st PEASBLOSSOM POET (MR & MRS D MITCHELL)

at just 7 months is obviously raw but is absolutely brimming full of promise. For me, he scores in forehand, with good length & angle to his upper arm, for his age he also has good depth & enough length of rib, with a short & firm loin. He is correctly muscled & angulated, with no exaggeration. I particularly liked his strength of foreface, in balance to his backskull, masculine but with no hint of coarseness. Good for brow & chiselling, he has a kind & intelligent eye. I liked his extension & scope on the move if at times a touch untidy, he will sort himself out without doubt with age. He ran the older & more mature Puppy winner very close indeed in the challenge for BPD. I like him an awful lot.

Puppy - Dog Entries: 3 Absentees: 1

1st CALVDALE COSTA (MR & MRS M CALVERT)

another very promising youngster who scores in outline & balance, he is well ribbed, & has a firm & strong loin, very good depth to forechest, with sufficient heartroom & has enough length & a good angle to his upper arm. His head is masculine & refined too, extremely appealing, with good flew. He stands on strong legs, holds a firm & level topline when stood correctly. He is also well boned & has the desired flexibility to his pasterns, allowing him to move correctly & with purpose, which he did in the challenge to take BPD, narrowly, over an equally good minor pup. His future career should be interesting to watch;

2nd TRIXHUND TALKING OBSESSION (MR J & MR D M BULLOCK & LEWIS)

this youngster is extremely pleasing in profile action, but today I felt he was giving an awful lot away to the winner in terms of maturity & also finesse in headpiece, with a slightly lighter eye. I would also prefer a slightly better lay of shoulder. He moved true on the up & down, was well handled & put down in hard muscular condition.

Junior - Dog Entries: 3 Absentees: 1

1st TRIMERE TOTAL CHAOS (MISS S J CORBETT)

both extremely different in type here. I felt this winner was rangier & with more scope with a better layback of shoulder. I liked his head shape, but to be critical would prefer a softer eye shape. He was ultra-true coming & going & held a correct, level topline on the move, if when stood & over-stretched by his handler, this was indeed not the case! His long & well angulated upper arm allowed him to really reach out & extend in front on the move. He is particularly good from hock to toe;

2nd FREWORTH POLAR EXPRESS (MRS J V WHITWORTH)

another good one, with lots to admire. His topline is spot on, firm, both stood & on the move. His head is a touch stronger than the winner, & he is little throatier too. He was in tip-top condition, with good definition to second thigh, with clean & tight feet.

Yearling - Dog Entries: 4 Absentees: 1

1st TRIMERE TURNING POINT AT KERRIJOY (MRS K BRENNAN)

headed a very mixed class, but was a clear winner for me, but to be critical I would like a bit more of him all round. He is an ultra-true mover, holding an excellent outline. Very well presented with a balanced headpiece with a clean & expressive eye, well set ears, the best & tightest of feet with the cleanest pasterns of the class. I note his litter sister took the equivalent class later in the day;

2nd CASSAPPLE KENTUCKY DREAM AT MELTAROSE (MRS E ROWLINSON)

not quite the tailset nor strength pastern of the winner, with some presentation issues hidden in the coat. He did, however, score in forehead, depth of body, is well ribbed & uses his forehead to extend in front. He moved true both ways;

1st MOMPESSON ROYAL DREAMER (MRS R & MR M TWILLEY)

headed a class of compromise. I felt that this winner scored in topline with exceptionally good feet, if a touch broader than ideal in backskull for me & I also felt his tailset & tail carriage too high. He was, however, very well muscled & moved true on the up & down;

2nd MEONSTOKE HAWTHORN (MRS K C TAUBMAN)

I preferred the head shape & balance on this dog, but he has a tendency to roach his topline both stood & on the move in profile & was splaying his feet badly today. I felt that he also needed to body up & grown into himself, but was sound both ways, showing some reach in profile too;

he headed a very good final line-up from a very mixed class in terms of quality, just edging out another excellent dog in second spot. This juvenile scores in headpiece with a smashing eye shape & expression, he also has good overall balance, but I feel that his best is yet to come, as he still needs to fully mature in body & muscle. He holds a very good topline both on the stack & in profile showing accuracy & extension, if a touch proud of his tail today

2nd TIVERSTONE CHORISTER BOY (MR M J & MRS J V SHOVEL)

totally different type of head here, but it appealed to me immensely, so kind an eye & he is so very well put together, he has a better tail carriage than the winner, but not quite so tidy in the feet department as 1. this dog & the second in this numerically strong class really stood away from the rest for me. I absolutely loved this dog, he is totally new to me, & I found him almost impossible to fault. His head is masculine, balanced & not overdone in any way, with good chiselling, clean cheeks & a kind expressive correctly shaped almond eye. He is so very well proportioned, so strong in body with such a firm & compact loin, perfect topline, lovely angles both ends, & the perfect tailset, carriage & usage. He is so good through the neck & shoulders, he has lovely width & depth in front, he simply flows from end to end. On the move he was perfection, & I was delighted to award him what I was later told is his 2nd CC & a well deserved BOB, putting up a spectacular performance for this lovely breed in the gundog group later in the day too;

2nd CALVDALE ZERO TO HERO JW SHCM (MR & MRS M CALVERT)

close up to the winner, he too has that super flow from end to end, perhaps just slightly longer cast, but so very balanced throughout. Many of the remarks above apply to this boy too, he just needs a touch more time to fully mature. His headpiece, although different to the winner, appealed immensely. I was seriously considering this dog for the RCC, but he was quite determined that it was not to be his day in the final challenge, a pity;

like the last class, this dog & the second stood away for me. They are vastly different types, but both with so much to offer the breed. This winner scored for me in balance, his classic head & his ultra-true action coming & going, if to be critical a touch reserved in profile & reach today. His presents a very strong outline, is firm in topline, deep in forechest, he has broad thighs, excellent tight feet & was in tip-top muscled condition with a correctly set tail & good carriage. I was delighted to award him the RCC;

2nd SH CH PEASBLOSSOM JESTER (MR & MRS D MITCHELL)

a most impressive dog from any angle, he also flows from head to toe. He scores for me in balance, in depth & in outline, he too has a strong level topline, a firm & compact loin with good tailset & carriage & with just the right amount of bone. His headpiece, however, is not my personal taste, just a touch perhaps too elegant but saying that, it is most definitely balanced, masculine & has lots of chiselling with a dark & expressive eye. He is the most impressive mover in profile action out-performing the winner but today was not quite as accurate coming & going. Class 1541 PGD (7 Entries) Abs: 0

Two nice boys headed this class and on another day, could easily change places

1st: 6986 BRENNAN Mrs K Trimere Turning Point At Kerrijoy

19 month liver tri boy, balanced masculine head with kind expression. Good width and depth to muzzle, eye of good shape and colour. Decent length of neck leading to well laid shoulders. Good depth to chest, ribs well sprung, short coupled, level topline. He is a little straight in stifle, but has good bone and feet. I loved his free and easy movement, really reaching in front and driving from behind - it was effortless. He is still in need of development, but won this place today on his super movement.

2nd: 6997 TRACZ Miss J J Melverly Desert Strike Over Acregate JW Sh.CM Quality liver & white, which on first inspection I thought would be my winner today, he has a lovely masculine head with dark eye, and good muzzle. His neck is of good length, although I would prefer him a little cleaner in throat, he has good forechest, is well angled front and rear with good spring of rib. Loved him for his substance, and well boned legs and tight feet. On the move today, he just didn't seem to get it together which was a shame. Shown in gleaming coat as always from this exhibitor,

I was treated to two lovely boys in this class.

1st: 6988 COKELL Mrs H Carlyquinn Can't Wait JW Sh.CM

Classically marked liver & white, with well balanced, masculine head & lovely expression. Super length of neck leading to well laid shoulders. Lovely depth of body with good spring of rib giving plenty of heart and lung room. His hind

quarters were solid and muscular, he has good rear angulation, well bent stifle and good width of thigh, with well boned legs and tight feet. He moved out well with reach and drive, pleased to award him BD BOB and to see him shortlisted in the group. Well done!

2nd: 6998 TRACZ Miss J J Sh Ch Meadowdale Alabama Slammer at Acregate Sh.CM

A worthy Sh Ch and one I have judged before and have no reason to change my opinion of him. He has a beautiful head, masculine all through with the darkest of eye, giving that soft, kind expression that I love. Good length of neck, deep chest with good spring to rib. He is well developed in forechest, straight front, good bone and feet. On the move today he was not quite as flowing as the winner, throwing his front out. However, I couldn't deny him Res BD.

I found these two girls very similar, just preferring the substance of one.

1st: 6989 COKELL Mrs H Carlyquinn Mama Mia
15mth old liver & white. Pretty feminine bitch with lovely head - eye still needing to darken, but doesn't detract from her expression, she has lovely depth of muzzle. Good length of neck into well laid shoulders. She is a touch long in body for my taste, but has decent depth to chest. She has substance but remains feminine, good bone and feet, she covered the ground well with her steady movement. RBB

2nd: 6995 SHOVEL Mr M J & Mrs J V Gertrude Jekyl At Tiverstone

Another pretty liver & white bitch, feminine balanced head with lovely dark eye, giving a soft expression. She has a decent length of neck, but is still needing to drop a tad in chest. Good front and rear angles enabling her to move steadily around the ring.

1st: 6996 SHOVEL Mr M J & Mrs J V Tiverstone Magnolia Gold

What can I say, I loved this beautiful, feminine, black & white bitch from the moment she placed her first paw in the ring! She is correct for size, compact and beautifully balanced. Her head is perhaps a touch stronger than I would like, but still remains feminine with the darkest of eyes and lovely expression. She has a super outline when stood and has substance, but remains all woman! She has a good length of neck and lovely angles front and rear, well developed chest, her ribs are well sprung and she has good bone and feet. Her movement was true both coming and going, but despite the best efforts of her handler, she decided today wasn't the day for tail carriage. Her black & white coat was gleaming in the sunshine. She couldn't be denied Best Bitch but in the challenge for BOB, had to give way to the Dog

Northern English Springer Society held a Ch show where BIS was Art-Wave's
Top Dog; RBIS, Calvdale Duty Calls; & BP, Plaiglen Zee Zee.

I would like to thank the committee for inviting me to judge at this show & to
award CCs in this breed for the first time. Sadly the weather was against us &
judging had to be completed inside, which is such a pity as the setting & outside
ring looked wonderful.

I enjoyed my day & was pleased with the entry both numerically & in quality as I
was able to find something very pleasing in most classes.

Minor Puppy Dog (2,1)

1st Merry's Anacapa Just William

b/w/t of 7 months, well bodied with good legs & feet. Pleasing head with a soft
expression, still needing to break a little. Balanced angles & level topline. Happy
on the move & nice to see a youngster enjoying himself.

Puppy Dog (3)

Class of three youngsters all at differing stages of development, all possessing
good qualities

1st Bullock & Lewis' Trixhund Talking Obsession

this 11 months boy is maturing well, his head is masculine with good work but
still needs to break & finish. Lovely reach of neck & clean through the shoulders,
straight front & good legs & feet. Bodying up with a well sprung rib & firm loin,
has balanced angles front & rear. True on the out & back & has a free open side
gait covering the ground well. BPD;

2nd Topliss' International Playboy from Tamaam to Beresford

l/w of 9 months with a pleasing head, developing well, still a shade light in eye
but there is plenty of time for this to darken. Clean in neck & has depth to
forechest, well bodied & in good condition. Needs to balance out in angulation &
tighten on the move. Lots of potential there he simply needs time;

3rd Stokes' Arrowbein Time Traveller at Twizeltree

Junior Dog (4)

1st Calvert's Calvdale Costa

impressive youngster who presents a clean outline. Head masculine with a soft
expression & good chiselling. Clean neck & well placed shoulders, depth to

forechest & ribs well sprung & back to a firm loin. Good rear end & enough angulation to give him drive & power. In super condition, he covered the ground on the move & I feel he will have a bright future;

2nd Brough & Walkers' Riselawroad No Deal

slightly bigger in make & shape but maintains his balance. Lovely head with right amount of work & a lovely expression. Clean in neck & well placed shoulders & the required return of forearm. Depth to forechest & ribs well back, firm through the loin & developed quarters. Topline held throughout, just not the finish to the croup as 1. Moved out well with a driving action but needs to settle a little in front & work with his handler a little more. Another I think has good prospects

3rd Lawler & Lambert's Roqfolly Never Say Never

4th Corbett's Trimere Total Chaos

Yearling Dog (1)

1st Wilson's Chelmeress Hawkspur Green

b/w boy of good size. Soft expression & good proportions to his head. Clean neck & level topline, ribs well sprung & back. Straight front & decent depth to forechest, good legs & feet, happy on the move but needs to coordinate with handler a little more.

Maiden Dog (No Entries)

Novice Dog (No Entries)

Undergraduate Dog (2)

1st Brough's Riselawroad No Deal

2nd Jackson's Mompesson Winchester

masculine in head & expression, strong through the neck & clean over the shoulder. Good depth to forechest & ribs well sprung, loin of correct length & well-muscled. Stifles well bent & standing on excellent legs & feet. In good coat & hard condition, he moved covering the ground

Graduate Dog (1)

1st Elliott's Peasblossom Nemesis with Jonabar

upstanding dog who has good length of leg & overall balance. Masculine in head & expression with a kind eye. Good reach of neck, lovely through the rib & loin, quarters developing & topline & tailset OK. Sadly had a little dead tail today so not as comfortable as I have seen. Moved OK but needs a little more coordination with his handler

Post Graduate Dog (7,3)

1st Holt's Melverly Missionaire to Bethryn

medium sized boy who is balanced & has the right amount of substance. Masculine head with soft expression & good chiselling & fluting, good layback of shoulder & depth to forechest, straight front & good bone & feet. He is well ribbed

& maintained his topline throughout, quarters developed & used to advantage on the move giving him drive. Well presented & moved as one with handler;

2nd Merry & Wrights' Anacapa Just Jack

pleasing head & expression with good proportions to his head. Clean through the neck & shoulder line, depth to forechest & ribs sprung & well back. Quarters developed & correct length from hock to heal. Well presented & moved ok, just lacked the finish in maturity of 1 today but plenty of time for this to come

3rd Elliott's Peasblossom Nemesis with Jonabar

4th Richardson & Terry-Richardson's Alanea Juke for Cherishym

Limit Dog (12,3)

1st Smith's Molverly Buona Notte

this dog has a well moulded head, with lovely expression & the right amount of work to give the true Springer head. Clean & powerful in neck, good front assembly & depth to the forechest. Ribs sprung & well back to the correct length of loin & good finish to the croup. Topline held throughout, he really does present an impressive picture when stacked. On the move he was positive & paced correctly to get full advantage of his movement. He stands on super legs & feet & was presented well. He is still young & I feel the best is still yet to come, however today he could not be denied & it was my pleasure to award him the RCC

2nd Cokell's Carlyquinn Can't Wait JW ShCM

a dog that I judged as a youngster & at the time I said he just needed to fill his frame, he is now coming to full maturity & filling that frame. Developing well he has a masculine head which is well proportioned. Clean through the neck & shoulders, straight front & developed forechest, ribs back & firm through a correctly proportioned loin. Good topline & finish to the croup, he has well bent stifles & decent musculature but would still benefit from a little harder condition. A nice dog who's day will come;

3rd Warrener's Waterswarren Willy Wonka

4th Topliss' Beresford Special Delivery

5th Lawler's Roqfolly For Your Eyes Only

Open Dog (8,3)

1st Karlsson's Art-Wave's Top Dog

this dog entered the ring with such presence you could see that he meant business. He has a masculine head & soft expression with the correct amount of chiselling, being critical, a shade strong in backskull but this did not detract in any way. He flows through the neck & shoulder & has good return of forearm which enabled superb reach on the move. His forechest is developed & ribs are sprung & well back to a firm loin, giving him compactness without being short. His quarters are so well developed with hard first & second thigh that his rear action is accurate & has drive & purpose. He presents an outline that simply flows & this is maintained on the move. I was impressed as I went over him & my thoughts were confirmed as I watched him on the move. All of this topped with super presentation completed a package that fully deserved top spot. My pleasure to judge & award him the CC & BIS

2nd Topliss' Swed & Dan Sh Ch Sanque's Cut To The Chase

a b/w dog that I have often seen from the ringside & was pleased to have the opportunity to go over him. He has a super head, balanced with the correct amount of work & such an appealing expression. Skeletally he is very well made & you do not fully appreciate his quality until you get your hands on him. Moved true & with purpose, he was well presented & in good condition, a shade more weight would fully complete the picture

3rd Mitchell's Sh Ch Peasblossom Jester

4th Tracz's Sh Ch Meadowdale Alabama Slammer at Acregate ShCM

5th Topliss' Sh Ch Forest Fruit from Tamaam to Beresford (Imp Pol)

Special Beginners Dog (1)

1st Drinkall's Mompesson Tribute to Esscroft

l/w/t who is honest throughout, pleasing head & expression, decent reach of neck & good topline, balanced angles. In hard condition he has a true action but just did enough, needs a little more enthusiasm, well handled & presented.

Veteran Dog (6,2)

1st Mitchell's Sh Ch Peasblossom Chance JW

l/w boy who is on good form, masculine head with good work, just a little strong in backskull for my taste. Lovely reach of neck & good front assembly, super ribs on him & loin of correct length. Powerful developed quarters which he used to drive around the ring. Well presented & handled, my pleasure to award him
BVIS;

2nd Downward's Sh Ch Reubens Silent Reflection

at 10 years this boy is a credit to his owner, I have competed with him for a long time & it was lovely to have the chance to go over him. Masculine in head, he has a soft expression & good work. Clean through the neck & shoulder, balanced angles & still holds a firm topline. On the move is happy & true

LADY MILLION (AI)

Many thanks to border union, my stewards, and especially all the ess exhibitors who came to allow me to assess their dogs, thanks to kay for the photos. My contract with the k.c. and border union was to judge ess on 20th June 2015. Not to judge on either previous wins or reputations, neither to take into consideration who bred or handled but to assess dogs purely on the day. I found a lot of things that pleased, the front angulation on most dogs was generally better than they were the last time I judged, this is maybe due to the introduction of more bloodlines from abroad. On a negative note heads I am afraid have become very diverse, the most common fault I came across is the long, lean head type, forefaces that seem to go on forever with no break or work, combine this with the light eyes that have plagued the breed for a long time now and you have lost the Springer head and expression completely. The lack of Springer temperament influenced some of my placings in both the classes and the major awards. In males I was looking for total masculinity with style and that touch of arrogance. In bitches I like them to have strength and substance coupled with unmistakable femininity. I feel I found this in my main winners.

1st CALVDALE COSTA (MR & MRS M CALVERT)

Got things off to a good start, very stylish young dog, he is of good size, head is maturing nicely, masculine, his eyes are darkening, he is well angulated fore and aft, good bone for his frame, body is deep right through, tight feet. As always from this kennel presentation 1st class, he used the big ring moved with soundness and drive. Promising young dog.

2nd RISELAWROAD NO DEAL (Ms C & Mr P BROUGH & WALKER)

Different type, head is strong and eyes need to darken. He has strong bone, well turned rear end, good tailset, he strode out well, he needs to deepen and fill out to see the best of him.

Novice - Dog Entries: 1 Absentees: 0

1st MOMPESON WINCHESTER (MR R W & MRS F JACKSON)

Most definitely a male, masculine head, eyes need to darken, he has a strong muscular neck, good upper arm to shoulder angulation. Strong bone, good feet. Needs to deepen in loin. Gave his handler a hard time on the move, but strode out well once he settled.

Post Graduate - Dog Entries: 3 Absentees: 0

1st MELVERLY MISSIONAIRE TO BETHRYN (MS K & MISS B HOLT)

Won this class with a bit to spare, Stacked he catches the eye, his head and eye are ok, Scores in body, well sprung ribs good topline, enough bone and good feet. I would like a bit more turn of stifle and his tailset is a bit high. He moved out well and soundly.

2nd ALANEA JUKE FOR CHERISHYM (MR P & MRS Y RICHARDSON & TERRY-RICHARDSON)

Head is ok, good neck, topline, A bit wide in front, needs to deepen in loin, Moved out ok,

This class gave me the classic headache of dogs that looked lovely stacked up but their movement let them down badly.

1st CARLYQUINN CAN'T WAIT JW SHCM (MRS H COKELL)

This dog is all male, He has masculinity stamped all over him. His head is of a good type, nothing long or lean, his eye is dark enough. His neck is strong and muscular, and is well set into a lovely front assembly, deep chest, good bone, feet. His body is deep right through, his topline is excellent which is finished off with a glorious tailset which gives that proper springer look to his rearend, he has strong hindquarters. His height to length ratio gives an overall balanced look to him.

The big ring suited him, (if not his handler lol). He was easily the best moving male here today. No short choppy strides here. He throws his front out in long straight strides driving from the rear. His side gait is unhurried, with both his head carriage and topline held as they should be. He was well handled and presented in good condition.

Very pleased to award him the CC.

2nd MELVERLY DESERT STRIKE OVER ACREGATE JW SHCM (MISS J TRACZ)

Initially this dog didn't really catch my eye, his markings don't do him any favours. But on going over him he is well built, has a good head and eye, nice spring of rib, enough bone, good feet, he appears slightly long to his height, maybe just his markings, he moved out well and soundly.

The first thing that hits you about this dog is his absolutely correct upper arm to shoulder angulation.

He does look good stacked. His head is masculine, his eye if I am being picky could be slightly darker but not much, there is work in his head. His neck sits perfectly into that wonderful front assembly, he has a good topline, deep body, today his loin area looked well filled, well sprung ribs, good tailset. His

rearend is wide and well turned, lovely bone and feet. In all a cracking dog. Unfortunately he was unsettled today, backing off me as i started my close assessment .on the move he was sound but lacked the style and animation i was looking for, as i stated it is all about look AND performance on the day. Quality dog who was well worthy of ResCC.

2nd SH CH PEASBLOSSOM JESTER (MR & MRS D MITCHELL)

Very striking glamorous dog. I must admit tri's dont always do it for me, this dog is as good a tri as i have judged.

His head has enough masculinity, his eyes are dark which makes his expression good. He neck is strong and muscular, good front assembly . His body is deep right through, with good spring of rib. His topline is good ,rearend is well turned, with short hocks. Tight feet. He moved out well and soundly in the big ring. Close between 1st and 2nd, i just preferred the overall type of the winner.

In my intro i said i was looking for bitches with strength and substance and importantly femininity. This young bitch ticked all these boxes. Stacked she looks great, definately a bitch. Her head is feminine,with break and work, her eyes are nice and dark if slightly rounder than almond shaped, Strong muscular neck which again sits well into a lovely front assembly. She scores highly in her deep body with well sprung ribs. Stacked she has a lovely run from neck into her topline, Her rearend is both wide and well turned, good tailset. Well boned without any loss of femininity, good feet. She has ring presence . On the move she is sound and has great harmony with her handler. Her movement is straight and unhurried,her head carriage and topline are also held correctly. presented in hard condition and lovely bloom.very pleased to award her CC and BOB.

2nd TRIMERE TERESA GREEN (MISS S J CORBETT)

complimented the winner in a lot of areas. She has the strength and substance i like, Again definately a bitch. Her head is where i found myself faulting her,just a bit strong for me,her tri markings are dark and dominate her expression. She has lovely angles fore and aft,lovely bone and feet. Strong muscular neck running into a lovely topline. Deep body,well sprung ribs,excellent rearend. Moved out soundly ,presented in lovely condition

As someone mentioned earlier,the b/ws are in a good place in the breed right now. This bitch is very much a top quality example. Stacked her overall appearance oozes type and femininity. She has strength and substance. Her head is really feminine the dark eyes that b/ws generally have gives her a soft melting expression. Her neck flows into a lovely front assembly ,deep chest, her body is deep with well sprung ribs,she has a lovely top and bottom line giving that look of real substance. Her rearend is both wide and nicely turned with a good tailset. Her bone is clean and straight.her feet are tight and nicely round. Presentation again was 1st class. Her movment was sound but again she didnt show the animation and freedom in her movement that i was looking for.these things can and do happen .her overall quality and type gave me the pleasure to award her ResCC.

2nd CRO CH TRIMERE TOUGH COOKIE (MISS S J CORBETT)

As a puppy i really admired this bitch. She still has many things to admire but a year or two on i feel she has grown but not deepened yet to compensate for her growth. Stacked she looks impressive. A lovely balanced outline if just that bit racy in her undercarriage. Her head is probably a bit strong for me. But from there onwards she has lovely strong muscular neck. Great angulation fore and aft,deep chest,lovely bone ,feet. Great topline,wide muscular rearend with lovely a turn. She moved out soundly and with style and ring presence.

NOTTERDCC MOMPESON WINCHESTER BP TRIXHUND TALKING
OBSESSION RBCC ROQFOLLY BORN TO BOOGIE

I was pleased with the improvement in hind movement on the majority of dogs but surprised by the number of overweight dogs/bitches. Presentation was good on all but some of the sleeker coated dogs were lacking the all important undercoat.

1st PLAIGLEN BEATERS BTRUE (MS F GLENDINNING)

Nicely balanced well made B/W boy. Masculine head but not overdone with a kind dark eye. Correct shoulder & upper arm leading to a well sprung rib & good depth of body for age. Moved well when settled. Needs a bit more confidence but time is on his side.

2nd ANACAPA JUST WILLIAM (MR G J WRIGHT)

Another well bodied baby with plenty of bone for his age. He moved well & just needs everything to come together.

1st TRIXHUND TALKING OBSESSION (MR J & MR D M BULLOCK & LEWIS)

A smart L/W boy who really covered the ground on the move. Correct shoulder angulation, good topline & tail set. Needs a little more work in his head but that should come with maturity. Hope he doesn't grow any more.

2nd SURVIVAL POINT (MRS M MACHRAY)

Well made L/W with a good body and well laid shoulders. Maturing nicely, not so steady on the move but went well when settled.

Junior - Dog

Entries: 3 Absentees: 0

1st CALVDALE COSTA (MR & MRS M CALVERT)

Very well presented L/W boy with a super, well chiselled masculine head leading into a strong neck and well laid shoulders. Good depth of body with well sprung ribs. Strong hindquarters & he moved with plenty of drive. Not overdone in any way.

2nd ROQFOLLY NEVER SAY NEVER TAF (MR G & MR D LAWLER & LAMBERT)

Many of the above points apply to this boy as well. He has a darker eye than the winner of this class & it was a close call. Another with a bright future. Unlucky to

meet 1 today but a well put together youngster who covered the ground with ease. Movement just needs to tighten up.

1st MOMPESON WINCHESTER (MR R W & MRS F JACKSON)

Real old type of Springer. Super chiselled masculine head, clean strong neck & correct shoulder & upper arm. Well sprung ribcage, level topline extending to correct tail set. Covered the ground well on the move RCC

2nd ROQFOLLY BLACK LABEL (MRS J M CRABTREE)

A different type to 1 & not quite as mature but a sound young dog. Kind expression, dark eye, clean head. Carrying just enough weight, he moved with drive & purpose. His head just needs to break to complete the picture.

Winner of a lovely class of quality dogs. A mature masculine L/W who ticked all the boxes for me today from his typical Springer head to his strong well made rear. His conformation is not exaggerated in any way. Just a good honest dog who covers the ground with purpose & drive. I could not fault him today CC.

2nd MOMPESON BLINKIN ECK (MR R W & MRS F JACKSON)

Very nice boy who's head reminds me so much of the dogs of 30 years ago. Kind expression, strong neck & well laid shoulders. Slightly shorter in body than 1 but a good spring of rib & sound true movement.

a well grown young male coming up to 12 months of age. He is of good size having pleasing overall proportions but with plenty of scope for development & will only improve with further maturity. Attractive in head which is breed typical while maintaining the youthful look, strong good length neck & well-made body with nicely let down hindquarters. Moved particularly well especially in hind action gaining him BP over a very attractive bitch puppy, RBD & later PG4.

a shapely 17 month old who is of medium build & size & while standing is of pleasing proportions in length to height. He is handsome in head with the side profile & head planes I like & pleasing in expression face-on. Good width across the chest & stands true both in front & rear. He has spring & is ribbed well back. Moved with extension in front & drive behind but needing to strengthen in rear to be at his best.

Class 1604 PGD (6 Entries) Abs: 3

1st: 6062 TAUBMAN Mrs K C Meonstoke Hawthorn

a very smart quality 2 years stylish male who is attractive in profile being of the size & proportions that caught the eye. I preferred his breed typical head both in shape & size to 2 & which is entirely compatible with the rest of him. Well-constructed in front, body & hindquarters with balance in angulations front/rear & having a firm topline. A pleasing happy temperament making him a little fond of his tail on the move. Moved out with true front & good width drive behind which with his pleasing construction & super profile picture gave him BD

2nd: 6053 ROWLINSON Mrs E Cassapple Kentucky Dream At Meltarose

a slightly taller 20 months pleasing profiled male, strong features in head & heavier in body & more covered over the loin than I would prefer. He has pleasing construction in front, body & hindquarters with pleasing width all through. Free moving with excellent side gait but a little unsettled in front action;

a very typy rising 3 years smart looking male with a very attractive head & expression which I just preferred to 2. Pleasing construction in front & forequarters with a true parallel front, tight compact feet, forechest, good spring of rib & tight elbows. He is workmanlike in appearance & is well proportioned in body & balanced in angulations front/rear. Moved purposefully with true extension in front but needing to be tighter in rear action;

2nd: 6066 WALKER Mr S P & Mrs W M Sh Ch Dexbenella It's About Time JW Sh.CM

an upstanding 5 years male who is impressive in stature, maturity & eyecatching in side profile. He is mature, masculine & breed typical in head which is set well onto a strong good length neck. Once you handle him you find that his body is well covered especially over his ribs & across his loin which, for me, detracted from the firm, sleek appearance needed in a working breed. He is strong in look & bone & is very well coated. He moved out confidently but tended to be heavy footed especially in front action & a little loose hocked behind.

Thank you to the committee for inviting me to judge their open show. There was a lovely large outdoor ring to give the dogs plenty of opportunity to move. Some lovely dogs seen, all with that great springer temperament. Unfortunately too many dogs lack correct exercise and this showed particularly in the rear movement and flat feet with long nails, presentation did not help in some cases. Very pleased with overall winners

Liver & white 16mth old. Well presented in lovely coat. Foreface and skull in proportion in length, starting to develop under the eyes and through the stop, would like more width to the skull but he's young so has time on his side. Well set correct shaped eyes, good colour. Good length neck, into well laid back shoulders. Straight front, well boned legs into tight compact feet. Deep chest, balanced length of body. Well let down hindquarters, which he used to move well around the ring.

Handling - Judge Sarah Stacy

Thank you for inviting me to judge your Junior and Adult Handling classes and also a fun and enjoyable Puppy walk. Was a lovely day and lovely food. Thank you.

Juniors

1st - Kaitlyn Nicholson

A polite young handler, talking to her dog at all times, showing the dog at a good standard, showed the teeth neat and gently. Good pattern work with straight lines and tight corners. Presented the dog lovely and moved the dog at a correct pace. A smart handler to watch in the future.

2nd Phoebe Toublic

Adults

1st Jackie Weyman

Easy winner for this class as she showed her dog to the best of it's ability. Jackie showed the teeth correctly, presented her dog well even though the dog was a little un-settled on the stand but coped well. Neat pattern work with good straight lines. A relaxed and good handler.

Thank you exhibitors for bringing such a quality entry under me, I really enjoyed my day judging some lovely examples of the breed. In many classes it was difficult to choose between exhibits and I can honestly say that there were several that I would be happy to live with. On the whole presentation was top notch with just a few not wearing their best coats and having to pay the price, a couple were sadly overweight and went down the line because of it remember that this is supposed to be the 'Highest on the leg and raciest in build of all British land Spaniels'. It was very pleasing that the vast majority of exhibits were true coming and going and had that wonderful free Springer gait.

I would like to thank the society & also my Stewards. Also the exhibitors for a very good entry & the sporting manner in which my decisions were received. On the whole, presentation was of a high standard. A few exhibits were overweight & lacked muscle tone which I felt spoiled their hind movement. A few had rounded skulls, narrow muzzles & light eyes which spoils the true Springer expression. However, I was happy with my winners & enjoyed the day immensely.

My thanks to all exhibitors for braving the storms & rain on this very wet Sunday morning, I only noticed one dog worrying about the thunder! I was pleased to see eye colour seems to have improved, & there were some lovely heads. Overall the quality of the dogs was good, but presentation seemed lacking in a few, & please do not 'string' your dogs up when moving, a Springer shows best on a loose lead.

This was my first appointment in the breed at this level, and I enjoyed my day. Many thanks to SKC for inviting me and to my two efficient stewards, Gordon and Lyndsey. I thank the exhibitors for their entries, I can only comment on those exhibits which were in front of me, I found a variance in type and was very disappointed with the movement in many, what has happened to driving action behind and the swinging from the shoulder at the front? Unfortunately, this was sadly missing in many. All exhibits were presented in clean condition.

Class 923 MPD (2 Entries) Abs: 1

1st: 3504 ADAMS Mrs G Beresford Place Your Bets
Raw liver and white male of just 6 months, I found his head to be typical of the breed, although I would have preferred better pigmentation, he stood on straight legs, his elbows were loose, hopefully these will tighten with age as he fills his frame, his shoulders were clean and well laid, and he sported a good length of back, standing on moderately bent stifles at the back, tail set was good, but he had to have a tendency to carry it high on the move. BPD

Class 925 JD (1 Entries) Abs: 0

1st: 3509 CALVERT Mr & Mrs M & N Calvdale Costa JW
Smart Upstanding young liver and white male of 14 months, his head had good chiselling and fluting, with good pigmentation, kind eye, and a good length of ear, he had a straight front and tight feet, good depth of chest, tight elbows, correct length to back and a good spring of rib, correct rear angles and well muscled second thigh, a tail which was both correctly set and of correct length, he moved OK.

Class 926 YD (4 Entries) Abs: 0

1st: 3552 SMITH Mr R J Sh Ch Molverly Buona Notte
The most mature in this class, which in the end gave him the first place, this boy presented a balanced outline, has a classic head with just the right amount of

stop and chiselling, square muzzle, well set on ears of good length, clean neck, carrying a little weight over the withers, straight front, good topline held on the move, just enough bend at the rear, moved OK, but was a little choppy at times.

2nd: 3507 BROUGH, Ms C & WALKER Mr P Riselawroad No Deal

Not quite as advanced as one, nice head with good chiselling, preferred the eye colour on this young man, standing on good straight bone with tight feet, he had a marginally better lay of shoulder, deep chest, good length to back with level topline held on the move, moderately bent stifles with low set hocks, good tailset, moved well and I am sure will improve with maturity.

Liver and white who presented a balanced outline, nice shape to head, although would have preferred a darker eye, straight front with tight feet, clean neck with a good arch which was lacking today in some, nice lay of shoulder, he sported tight elbows and a good spring of rib, reasonable rear with good tailset, moved ok but rear not as positive as I would have preferred.

2nd: 3542 MORGANS Mrs N J Kennair Northern Star

Black and white that wasn't as forward as one, he has a balanced head, straight front with tight feet, good shoulders, was lacking in brisket, had a strong topline which was held on the move, good spring of rib, strong in loin, moderately bend stifles, shown in hard condition, good tailset, moved well, another who will improve with age.

1st: 3548 SAVELL, Ms C & ALLEN Mr A Petranella Proper Gossip JW

I have admired this dog since I saw him as a raw youngster at Bournemouth a couple of years ago, a stylish liver and white, to me he has a balanced head which is masculine, having a defined stop, with just enough fluting and chiselling, well set on ears of good length, clean neck with a slight arch, good lay of shoulder, straight front, tight feet, deep chest, good spring of rib, level topline, and good

spring of rib, strong in loin, just enough bend at the rear, well developed second thigh, low set hocks, good tailset, moved true fore and aft with lovely profile.

Pleased to award him CC & BOB

2nd: 3534 LARGE Miss S D Meadowdale Riot Is Madaza

Close up and considered for the RCC, classic head of good proportions, not quite the stop of one, correctly set ears, sufficient neck, good lay of shoulder, straight front, deep chest, level topline, good spring of rib, strong in loin, moderate bend of stifle, well developed second thigh, well let down hocks, another strong mover.

hocks, good tailset, moved well. RCC

2nd: 3560 TRACZ Miss J J Sh Ch Meadowdale Alabama Slammer at Acregate Sh.CM

I found this boy up to size, he had a decent head and preferred his pigmentation over one, good neck and shoulders, straight front, deep chest, good spring of rib, moderately bent stifles, low set hocks, another decent mover, preferred the make and shape of one.

Two babies, who were completely different in make and shape

1st: 3556 TOPLISS Mrs T E Beresford Ladies Day

Liver and white of just 6 months, litter sister of the minor puppy dog, presented a balanced picture, feminine head, good eye, well set ears, sufficient neck, reasonable chest for age, decent rear, was a little hesitant on the move which I forgave for one so young.

2nd: 3537 MACLEAY Mrs H & Mr S Tiamant Always Happy Girl For Gordius At Potrail

This young lady had a reasonable head, but I would have preferred better pigmentation, eyes need to darken, which hopefully will come with age, she had a straight front but would have preferred tighter feet, I found her to be short in back, which spoilt the balance, moderate stifles and well let down hocks, she moved well around the ring, I wrote in my note's "Happy Girl", so she lived up to her name.

Class 932 PB (2 Entries) Abs: 1

1st: 3554 TERNENT Mr G R & Mrs A Hunterheck Under A Spell

What a sweet little Black and White, one of the best that I have seen from this kennel, her head was balanced and feminine, dark eye of correct shape, sufficient bone for a bitch, straight front, her feet could have been marginally tighter, clean neck and correct lay of shoulder, chest needs to develop with age, good spring of rib for age, lovely topline which she held on the move, strong in loin, nice

rear with moderate bend in stifle, and good second thigh, well set tail, owner had her moving steadily which was correct for her age. BPB, BPIB and absolutely

over the moon to hear when I got home that she had won Puppy Group 1, well done to you both.

1st: 3563 WALLIS, Mrs P & Mr D & LEVENE Miss A Petranella The Real Deal
17 month old Liver and white, this young lady had a typical head from this kennel, being feminine, balanced with just the right amount of stop and chiselling, clean flowing neck with arch into well laid shoulders, straight front with just enough bone, good spring of rib, level topline held on the move, strong in loin, moderate bend, strong in second thigh, well let down hocks with good set of tail, she moved the best in this class, and I am sure with maturity will be knocking at the door in the future.

2nd: 3535 LAUHLAN, Mrs J & LAUHLAN Ms D Lochbride Mercy Me
Overall more mature than my winner, head was balanced but not as feminine as my winner, she was straight in front and stood on good feet, level topline, good rear angles and tailset, another who moved well.

Third in the Junior class, this young lady was balanced, having a typical head and good ear, her shoulders were OK, she stood on a straight front, she had sufficient bone, but I would have preferred tighter feet, chest needs to develop, but this will hopefully come with age, her rear was correct with moderately bent stifles, sufficient second thigh and well let down hocks, correct set of tail and another who moved well.

2nd: 3508 BROUGH, Ms C & WALKER Mr P Riselawroad Framed In Time
A slightly bigger built liver and white bitch, who was however balanced, feminine head with fair stop, good eye, fair length of neck, reasonable lay of shoulder, sufficient bone, feet were tight but tended to turn out on the stand, reasonable ribs and loin, correct angles at the rear, good tailset, moved true.

Difficult class to judge

1st: 3526 GREEN Mr K & Mrs C Kennair Like A Diamond

Black and white girl, balanced feminine head, sufficient fluting, kind eye, clean neck, good shoulders, straight front, level topline, good ribs, strong back end, was carrying too much weight which I forgave her in the class, but cost her in the challenge.

2nd: 3541 MCGOVERN Mrs F Riselawroad Copacabana For Baxbalach

This liver and white young lady was not as mature as my winner, she sported a feminine head, but I would have preferred more strength in muzzle, she had a fair neck and good lay of shoulder, correct bone, deep in chest, good ribbing, I

found her to be longer in loin than one, her rear was correct with moderately bent stifles, good second thigh and well let down hocks.

A lovely class, spoilt for choice.

1st: 3506 ADDOO, Miss J & ADDOO Miss L Trimere Truly Scrumptious At Reulemill Sh.CM

A liver and white girl who presented a balanced outline of correct size, fell in love with her feminine head which was both balanced and had just the right amount of stop, fluting and chiselling, kind eye of correct shape and colour, sufficient in neck, correctly laid shoulders, straight front, but could be lazy, owner needs to watch this, tight feet, deep in chest and tight in elbow, good length to back with a level topline which she held at all times, good spring of rib and strong in loin, moderate stifles, well developed second thigh, well let down hocks, low set tail, moved well in all directions, could not be denied in the challenge. Bitch CC

2nd: 3514 CORBETT Miss S J Trimere Teresa Green

Litter sister to one and I was splitting hairs, slightly bigger in frame than one, her head was of correct proportions and typical of the breed, I just found her slightly less feminine than one, lovely neck with arch, well laid shoulders, straight front, tight feet, good brisket, level topline, decent spring of rib, strong in loin, moderately bent stifles, well developed second thigh, low set hocks, like her sister excelled on the move, in the end splitting hairs and down to personal preference, strong contender for RCC.

Liver and white lady who in my opinion was a clear winner here, gave a picture of balance, head had sufficient fluting and chiselling with square muzzle, kind dark eye of correct shape, well set on ears of correct length, flowing neck into well laid shoulders, straight front, enough brisket, level topline held on the move, good spring of rib, strong in loin, moderately bent stifles, strong second thigh, well let down hocks, powered around the ring. RBCC

2nd: 3517 CUNLIFFE Mr G & Mrs J Sh Ch Ir Ch Calvdale My Girl Of Fallenleaf JW Sh.CM

Nice type, smaller than one, feminine head of good proportions, good neck and shoulders, straight front, tight feet, good depth of chest, level topline, stifles moderately bent, well let down hocks, good tailset, was carrying a little extra weight today giving her a rolling action which showed in her movement.

This was a most enjoyable appointment, efficient stewards and ideal weather. Virtually all exhibits were very well presented and I was impressed with the overall quality. The only real concern I have is the shortage of puppies that are coming into the showing at the moment, hopefully this is just a blip, but if not, it does not bode well for the future. Still a tender 22 months, but has a mature presence and oozes quality throughout. Lovely size and so well balanced. Classic springer head showing correct fluting, chiselling and proportions. Pleasing almond eye shape. Lovely reach of neck flowing into superb shoulders which in turn are set into a body with plenty of depth and well sprung ribs. Good forechest and neatly set elbows. Hindquarters are powerful, well angulated and sit on neat hocks. Great for bone with lovely tight feet, true and sound on the move. CC & BOB.

LWT. I had the pleasure of judging him at my previous appointment and he has matured into a grand dog of lovely size and proportions, presented to perfection. Excellent construction throughout, elegant neck flowing into good shoulders, strong in body and loin. Very good bone and feet. He has a very kind expression, I just preferred the head profile of the winner. Moved soundly with plenty of drive. RCC.

It was a pleasure to judge the breed today I set the ring up to ensure the pups and younger dogs were asked to start to move uphill rather than down to eradicate any pacing or sluggish movement as we all know give a Springer an uphill start and you will see a better driving action I wasn't disappointed. I would like to thank the Society for the invitation to judge and my two ring stewards who did an excellent job. Thank you to all the exhibitors for their entries.

The breed on the whole is improving bitches had the edge over the dogs in terms of overall quality. Light eyes are still a concern on a small minority, but the biggest concern is movement. We seem to be losing that springer gait that we are known for. The swinging gait straight from the shoulder with the rear driving from behind. I was pleased with all my winners.

A very mature l/w at almost one year old. Stood he makes a super outline with flowing lines from head to tail. Very masculine head, which I hope won't go over the top, lovely kind expression with a dark eye. Lots to like about him from his reach of neck although a little throaty and lovely front assembly. Fantastic spring of ribcage and well developed body. Ample bone with correct feet to his well let down rear angulation. Correct topline. Shown in lovely coat & condition. Giving his handler a hard time on the move, so his movement was a little erratic. BPD.

l/w of nice type. Nothing exaggerated about this boy and everything in proportion. A masculine head with a kind expression. Well put together forehead angulations, compact body which needs time to mature. He is going through the 'adolescent stage' at the moment, so is lacking in middle piece and furnishings,

but this will come with age and time will be his friend. Correct rear angulation with well-muscled quarters which allowed him to move with drive around the ring. Turned out in lovely condition as always from this kennel.

l/w of nice type & size. He is a dog that when stood doesn't stand out immediately, but his qualities are appreciated on closer inspection. His head is masculine with correct shaped eye, I would prefer more chisling & work in his foreface. Good reach of neck and a good lay back of shoulder. Super bone & tight feet. He has a good depth of chest with correct spring of ribs. Body needs time to mature and his furnishings need to grow to finish the picture. Correct well let down hindquarters with good muscle tone. He moved very soundly fore & aft which won him the class.

Well let down hindquarters with good muscle. Just requires furnishings to finish the picture. Promising puppy.

2nd HUNTERHECK UNDER A SPELL (MR G & MRS A TERNENT)

b/w baby who was giving her handler a hard time today! A bitch of lovely breed type with a lovely head & expression. Great reach of neck with good angulations to fore & aft. Lovely spring of ribs with good depth to forechest. Nicely coupled body. Stood on nice bone & feet. Well let down muscled hindquarters.

Movement a little erratic at times as needed to settle. Promising puppy.

Sincere thanks to the ESSC of Wales for inviting me to judge your Open Show, also thank you very much all of you that entered under me! I had a lovely afternoon in the ring and I'm very pleased with my winners. The excellent show committee and the steward made sure the event was run smoothly, thank you. I was positively surprised by so many pleasing heads with lovely dark eye colour which unfortunately is more and more rare here in Sweden. The majority is of correct size.

On the downside – I would prefer more strength in rear movement in general. Some dogs are massively overcoated which for sure disturbs and destroys the first impression and some would also benefit by dropping a pound or two ☐

at just 6 months this puppy is typical for his age. Lovely hazel eyes although a little loose. Well balanced in body but a little heavy in bone for me losing the raciness of the breed. I would like to extend my gratitude to all the officials of the club for the warm welcome Lesley & I received on the day & to the exhibitors, some who travelled long distances, for my opinion of their dogs. It was a representative entry with some quality exhibits that demonstrated the nuances of the breed. After judging I was asked for an overview of the breed based on the day. I believe the breed in general is losing two distinctive features. The throw forward in its gait & work & fine chiselling to the head. All breeds tend to go through such patches & with the assistance of knowledgeable breeders come out the other side.

I would like to thank the committee for asking me to judge this show, it was a great privilege and pleasure. Thanks to all the exhibitors for their entries. My only criticism would be that heads are not what they should be and we are losing flat cheeks and fluting also many were too full between the eyes with no stop and round eyes. Presentation was very good, movement in general was good my top winners movement was excellent which pleased me very much.

Thankyou GBAS for the invitation to judge at this my first CC appointment.A hardworking committee providing a well run show.Thankyou also to my efficient stewards. The eagerly anticipated day dawned and with particular reference to the horrendous weather conditions, I take this opportunity to thank all exhibitors for making such an effort to show your lovely springers. We were allocated a super-sized ring - the non-slip concrete floor being advantageous for assessing movement - this proved to be punishing for those in soft condition and/or overweight of which there was a good few! This can of course be easily remedied. All exhibits were super clean and care taken with presentation.

A good start to the day with this gentleman of a dog. Well presented and with a decent headpiece and kind eye,balanced both fore and aft with firm topline,deep in brisket, spring to ribs and strength over loin.Works at one with handler to provide steady ad sound movement. Owner should be justifyably proud of his super fit condition.shortlisted for BVIS.

1st CALVDALE KEELMAN (MR & MRS M CALVERT)

my notes say 'smart' - yes he was and at 6 months on the day took his debut in his stride. His handlers gentle approach settled this young dog past the flashing blue christmas tree lights(!) to provide a confident mover with promise. Good proportions to head with correct eye shape and colour, nice arch to neck and super front assembly,enough body depth and correct in hind angulation,good bone and neat feet.Shown in gleaming coat.

2nd LORDSETT UNFORGIVEN AT BERESFORD (IMP POL) (MRS T E TOPLISS)

Different style of puppy and more mature in body properties. Liked his overall shape and size.He had a good 'doggy' head;skull to foreface ratios were excellent and with a glint in his well shaped eye decided he'd rather play 'puppet on a string' than show off his gait! Closer inspection and this extrovert had much to commend - a good front,well-bodied,good chunky rump,super bone and neat feet.

A quality dog with much to commend. Masculine headpiece without being overdone. Kindest of expression and displaying work around eyes. Strong neck with super arch leading to good lay of shoulder, ample heart room and well developed ribcage, short coupled, good width to well developed strong thighs, well off for bone and good cat-like feet. Little short in furnishings but none the less beautifully presented. Moved well both fore and aft with an assured positive stride.

That indefinable word 'quality' that this bitch undeniably has. A sparkling performance from start to finish. Stood she presents a harmonious picture. Whichever angle I looked at her found her captivating. Loveliest of heads with proportionate skull to foreface, super melting expression from well defined almond shaped eyes. Etch around eyes and flat in cheeks, good ear placement. Clean throat and strength in neck of just the right length. Fluidity of outline achieved by good shoulder placement, length of back and tail set. Has lovely point of shoulder, depth of brisket with plenty heart room, well ribbed up, nicely coupled and strength in hindquarters. Substance throughout but retains femininity. She has good bone and well padded feet. Moved with such precision and style covering the ground in an easy free stride. In Strictly's words 'It's a ten form Len' and 'Fab -u - lous!' In my words it's 'BCC and BOB'! Heard after presenting the award that this was her 3rd and crowning CC- so delighted - congratulations!

I thank them for the warm welcome, award winning hospitality and providing the hard working stewarding team. 1 Topliss' Lordsett Unforgiven at Beresford
7 month L/W, Very masculine head, well balanced with good depth of muzzle and ears set low. A good length neck set on well angled shoulders. His body will alter greatly as he grows but at this time I just felt he was a bit narrow all through. He has great density of bone, length of leg and tight feet. He was a bit in awe of the surroundings today, just learning his craft, but once he got going, moved ok.

Good length of neck into reasonably angled shoulders. Not the forechest and depth of one, and I was disappointed with the width of ribcage, but he is short in loin, has a firm bottom, is well muscled, has a good bend of stifle, and his tail is well set on. He moved well although very close behind.

1 Hensons Melkami William's Wonder at Kobrocobi
2yrs L/W/T, Very solid structural dog. Pleasing masculine head of good proportions, lovely dark eye, kind expression and ears set low. He has a strong thick neck, well angled shoulder placement, elbows tucked in, lovely fore chest and depth of body. His top line is level, well sprung and rounded ribcage and short loin. He has a well muscled back end, great thickness of thigh and turn of stifle, which provided a powerful rear movement. His legs are of good length,

nice round bone and stands on tight feet. He stood in good coat and was well presented.

PGD 2

1 Jacksons Mompesson Winchester

2yrs L/W, A well balanced masculine head for length and depth, back skull not too wide, lovely dark eye, soft expression and ears set low. He has a strong and lengthy neck, great straight front, and super shoulder angulation with bones of equal length. A prominent fore chest, well sprung and rounded ribcage, good depth of body all through, a little too short in loin for overall balance, but finished with a strong back end, well rounded bottom, thighs muscled, good bend of stifle and short hocks. He moved steadily with powerful drive but was a bit choppy in front. Good coat and presentation.

2 Happs Jorobaden Ballaragas

2yrs L/W, Very unfortunate to meet one today but I am sure he could change places in the future, very different and a good old fashioned style of springer. I liked his masculine head, good length and depth of fore face, width of muzzle, a little too wide on top of his skull, but good eye colour and shape. Ears well set. He has a good length of neck, well angled shoulder placement, plenty of fore chest, good depth of chest, and elbows tucked in. His rib cage is well developed, he has ample length of loin, level top line, a powerful back end and well set tail. Lovely turn of stifle and well muscled thighs. He has good round bone and length of leg but I was disappointed with his flat feet. He moved well once settled.

3yrs L/W, A dog I like very much and have judged before who is maturing well. Handsome masculine equal proportioned balanced head, dark eyes in unison with his jacket, giving soft but alert expression. He has a strong neck of ample length, my main criticism is he is very throaty and if not gathered up does spoil his profile. He has a decent lay of shoulder, his front is straight, plenty of fore chest and depth of body all through. His elbows are tight to his ribcage which is well rounded. He has plenty of bone, legs of good length and stands on tight feet. He is a bit longer in loin than I would like for overall balance. His bottom is well rounded and muscled as his thighs. He can give the impression of being over angulated on the rear when placed, but looked better when stood naturally, following a powerful drive around the ring. Very workman like and well presented.

2 Drinkalls Mompesson Tribute of Esscroft

6yrs L/W, another dog I have had the pleasure of judging before and wow how he has improved with maturity. Masculine well balanced headpiece, plenty of width, depth and workings. Ears set correctly. His neck is strong and has plenty of length but it looked stuffy today as he was carrying some extra pounds over his shoulders. His shoulder placement is adequate, neither upright or over angulated. He has a prominent fore chest and great depth of ribcage and body all through. His legs are of good length and have decent bone. He doesn't have the best feet and has a habit of standing ten to two. He has a lovely level top line,

good length of loin and a well set tail. His rear end complementing the front in angulation, well rounded and muscled. He moved well with drive. Well presented.

2yrs L/W, what a fabulous make and shape and worthy champion. Masculine head, balanced in width and depth, dark eyes of good shape, ears well set and soft alert expression. Strong neck of good length, shoulders have equal length of bone and great angulation. Front is straight, legs of good length are well under the body and elbows tight standing on great round tight and plushy feet. Another with a great fore chest, depth of ribcage and body all through. His ribs are well sprung, he has a level top line well set tail and good length of loin. His rear angulation complements the front, his bottom is nicely rounded and thighs muscled. His hocks are short and straight when stood naturally, but when stacked I dislike the handlers habit of pushing the backend down which at times makes it all wrong! Moved well. RBD

2 Glendinnings Sh Ch Plaiglen Hustle

5yrs B/W, A completely different make and shape, nevertheless another worthy champion. I find him a bit feminine all through but have to say he has matured greatly since I last judged him. His head is balanced in length, width and depth, he has a gorgeous black eye colour giving that wonderful soft expression. He is a little throaty, has a decent length of neck and straight front. He has less shoulder angulation than 1 although adequate and his fore chest not as pronounced. He has good depth to his chest, elbows tight and stands on a good length of leg and tight rounded feet. His top line is level and his rear complements the front. He moves straight fore and aft with drive. He was presented in good coat and cracking condition.

7yrs L/W Another worthy champion and just my cup of tea today – He is a lovely size, standing he makes a great shape, when he moves is straight, positive and drives looking like he'd go all day. He is masculine in head, well balanced length, width and depth. He has dark almond shaped eyes, very alert and attentive. He has an adequate length of neck although his markings can deceive, well placed shoulders with good angulation. His front is straight, elbows tight, plenty of fore chest and depth. He has good bone, length of leg and tight feet. His ribs are well rounded, loin of good length and top line is level. He has a firm rounded bottom, well set tail, muscled thighs lovely angulation and short straight hocks. When this dog moved he powered round in a controlled manner. His coat was not overdone and well presented, a credit to his owners. BD & BVIS

2 Tracz Sh Ch Meadowdale Alabama Slammer at Acreate ShCM

7yrs L/W Another lovely worthy champion, larger in frame to my winner. This dog has a beautifully shaped head, dark eyes and melting expression. His neck is elegant in length yet strong. His front angulation is adequate, his chest deep with a decent fore chest. He has good bone, balanced leg length and tight feet. He is longer cast than 1, has a level top line and a well set tail. Compared to his front I find him over angulated in the rear which showed today when he moved, driving from the rear pushing the front up out of the way. To be fair this dog would move better outside in more space as he just wants to go with his lengthy stride. Well presented.

7 mth L/W Lovely sweet chunky out going puppy. Balanced head, plenty of stop, dark almond eyes and well set ears. Strong adequate length of neck although a bit throaty, lovely shoulder angulation, legs set well under chest. Nice fore chest, deep ribcage, standing on well boned legs of good length and tight feet. She has a great symmetry in length and depth of body, not too long in the loin, level top line and well set tail. Her hind quarters complement the front in angulation. She moves well steady and straight. Reminding me a lot of springers in the past. BPB & BPIS

13 mth L/W, very feminine young lady, sweet head, balanced, ample stop and dark eye. She has a good length of neck, I would have preferred a little more angulation to the shoulders although the bones are of equal length. She has a good depth to her chest, length to her legs, decent bone and stands on neat feet. Her ribs need to spring, she has a good length of loin, level top line and well set tail. Her rear quarters are well worked, but like the front, I would prefer more angulation. Movement was very choppy today and far too fast, you really could do to slow her down.

1 Glendinnings Plaigen Zee Zee

12 mth L/W, just out of puppy, and being a handful today. Sweet feminine head, balanced in length and width, her eyes are almond in shape but need to darken and ears well set. She has ample length to her neck and a fair angulation to her shoulders. She has a straight front, good bone, nice length of leg and tight neat feet. Her body could be deeper and I found her too long in back and loin. Her hind quarters complement her front in angulation, she has a nicely rounded bottom, good tail set and is well muscled. For me her hocks are too long and she moved very erratically.

1 Dunsdons's Seaspring Becalmed

18 mth B/W, lovely feminine bitch with a great symmetrical body shape. Feminine headpiece with equal lengths to foreface and skull but found her a bit narrow through the width which was disappointing. Lovely dark eye, soft expression and well set ears. She has a decent length to her neck, well placed shoulder of good angulation. She has plenty of fore chest, deep ribcage and body all through. Her elbows are tight. She has a good length to her legs and stands on neat feet. She has a level top line and well set tail. Her rear angulation complements the front with a nice bend of stifle. She has a rounded bottom, is well muscled and straight hocks. She moved well with drive.

2 yrs L/W, sweet feminine head, another that I found to be narrow through the width, although equal in length. She has a kind expression, her eyes are of almond shape, but I would like them a bit darker. She has a decent length of neck, moderately angled shoulders, deep chest and straight front. She stands on well boned legs of good length with neat feet. I would prefer a shorter body length in the loin to portray a more symmetrical profile. She has a level top line and well set tail, rounded bottom and complementary angled rear. She didn't show a lot of enthusiasm on the move and was very close behind.

1 Topliss' Calvdale Duty Calls

2 yrs B/W, beautiful bitch. Feminine head, equal lengths of foreface and skull with plenty of width and depth. Lovely dark almond shaped eyes giving that required melting expression you just want to slip inside. Her neck is well arched and of good length, shoulders equal and well placed. She has a decent fore chest and super depth of chest. Her elbows are tight and she stands on well boned legs of good length with neat tight feet. I loved her solid well shaped ribcage and depth of body all through. She has the required length of loin, a flowing level top line and nicely set tail. I liked her rear construction, nicely rounded bottom, decent bend of stifle, thighs muscled, and short hocks. She moved well, head held high, tail swishing with reach and drive. RBB, RBIS & B B/W.

2 Dunsdons Seaspring All At Sea

5 yrs L/W, very unlucky to meet with 1 in such fine fettle, nevertheless plenty to like about this bitch too. A solid old fashioned type which I like, but unfortunately for the breed, in my view, a disappearing occurrence. Her head may be a little on the strong side for a bitch but it is balanced in length, has a decent width and depth about it. Her eyes are a decent shape and dark in colour matching her jacket. She has a strong neck of good length and well placed shoulders with great angulation. Her front is straight, legs set well under her deep body, they are well off for bone and have neat feet. She is a trifle out of balance in length of body. She has a strong, well constructed rear. I liked the way she moved with drive. Unfortunately, she stood in her under-ware today but otherwise a nice bitch.

Wow what a cracking class – Thank you. I really enjoyed judging this one and can only split hairs on the day for my final decision, I really like all of them, and all capable of changing position on different occasions.

1 Jacksons' Mompesson Royal Dancer

4 yrs L/W, really humbled to have this one put in front of me, I just loved her size, make, shape and constitution, beautiful. Her head is feminine, of equal length through the foreface and skull. She has a nice width and depth of muzzle, defined stop, chiselling beneath the eyes and fluting. Her eyes are of almond shape and dark in colour and ears well set. She has a strong slightly arched neck of adequate length. Her shoulders are well angulated and equal in bone length, her elbows tight, and she stands on well boned legs of good length with neat tight feet. She has plenty of fore chest, great depth of chest, spring of rib and short loin. Her top-line is a picture to be admired flowing from her head through to her well set tail. Her hind quarters are wide, strong, well muscled and angulated, finished with short hocks. When she moved around the ring she powered from behind with great drive without being close – an attribute of the breed, I feel we are loosing. Presentation – perfect. BB & BIS.

2 yrs L/W, A bitch I feel you need to get your hands on to appreciate as her markings deceive you. She has a pretty feminine head, equal length of foreface to skull, and plenty of depth in muzzle. Her stop not as defined as 1, but adequate. She has the darkest of eyes giving the required soft melting expression, but is alert and ready for action in an instant. The length of her neck is adequate, belied by the markings, muscular and strong. Her front assembly is great, with equal proportioned and angulated shoulders, front legs straight, well boned with neat feet and set well under her deep well sprung ribcage keeping her elbows tight. Her depth in body is carried right through and she is short in loin. She too has a powerful hind quarters, rounded bottom, good bend of stifle, a little longer in second thigh than 1 and short hocks. Her coat was in good order and well presented. She too has a great driving action, not too close on the move.

7 yrs young L/W. A lovely mature feminine bitch in absolutely beautiful bloom today. A fine feminine head of good proportions, dark almond shaped eyes giving a soft expression, and her ears are well set. Her neck is of adequate length and strong. I found her front angulation straighter than some, saying that

her chest is deep with a well pronounced fore. Her ribs are well sprung and depth of body is carried right through. She is longer in loin than I would like, making the overall proportions unbalanced for me. She has well muscled hind quarters which equal the front for angulation. She stands on well boned legs and has neat tight feet. I feel she is too long in the hock which showed in her close rear movement.

It was an honour for me to be asked to Judge this Open Show the Committee and all the helpers should be thanked for once again looking after everyone. The weather was kind to us I thank all exhibitors for entering their dogs under me, as I said at the end it was good to get hands on with so many of the dogs I have seen around the ring and benching at previous shows. My starting point today was the "Points of a Dog" as per the Kennel Clubs Confirmation and Movement, which I feel underpins our Breed Standard. There was nothing too exaggerated about the exhibits today and my class winners were all fit for function. Most of my winners I would be more than happy to live with.

Veteran D/B (4,2)

1st - Sh Ch Roqfolly Elle's Belle

Almost 7 and a half year old bitch. There is nothing over exaggerated about this bitch. She is compact with good reach of neck, deep chest, well laid back shoulders and good bend of stifle giving her a level top line. Moved well with legs driving straight fore and aft and good width. Preferred overall appearance to 2.

Pleased to give her Best Veteran in Show
