Thank you to all the exhibitors who entered Border Union Ch show and the good grace that most exhibitors accepted my decisions. I feel that we still have to watch eye colour in the breed which if too light spoils that lovely ESS expression. Over exaggeration still needs to be kept out of our breed as well. Overall some lovely exhibits.

Front assembly is good and well boned. Good shoulder placement into a good deep body and loin with a level topline. Good width of thigh. She stands so naturally correct that in your head you can put that imaginary vertical line from the base of the tail going to the back feet (great to see) Drove very well for a puppy of this age covering the ground with ease. Just needs to tighten up a bit but will come with age. Very promising. BPB & BPIB
