

It was such a pleasure and an honour to be invited to Judge this Breed Show for this Society and I would like to thank the Officers and Committee for looking after me so well and making me feel very welcome. The atmosphere in the Hall was friendly with smiling faces and clapping and exhibitors showing good sportsmanship on my choices, such a pleasure to see. In general, Bites were excellent as were temperaments and presentation, however I did find some classes challenging mostly due to the variation in type. This reflected in the movement which the standard calls for it to be 'strictly his own' - in some cases it really was, however in others Correct movement was hard to find. Rather than the correct swing from the shoulder I found many that were very restricted in front which gave them very short strides. Also there was some that moved very close behind and excessive body roll was also in evidence. Some Heads I found to be disappointing as either too heavy or not enough 'work' in as much as some stops were not defined and not enough chiseling, Light round eyes as opposed to Dark almond shaped eyes. None of this should detract from the fact that I was very pleased with my winners and I would also like to thank the exhibitors for their super entry and thoroughly enjoyed judging this Oldest of Sporting Gundogs.

MINOR PUPPY DOG (2)

1st Cliffords Dexealla Oasis Dream Of Chamford

This young L/T Man took my eye as soon as he came into the ring - his easy movement, throwing his legs straight forward from the shoulder. Head of good proportions, square Flew. Dark eyes with kind expression. No throatiness in Neck which is strong and tapers towards Head. Balanced in Body with good bone, Well laid shoulder, tight elbows and strong feet, once he settles in the ring he should have a promising future. BPD.

Unlucky to come up against 1st place exhibit Masculine head, a little straighter in front than 1st place exhibit, but with a good lay of shoulder.
